Welcome to Morgridge College of Education

This Student Handbook provides students in the program with policies and procedures to assist them as they progress through the requirements of the Morgridge College of Education (MCE) degrees and certificates. In addition to our program publication, the student should become familiar with the Graduate Policies and Procedures as stated in the DU Bulletin. Although every effort has been made to ensure agreement between these two documents, it is the student’s responsibility to read the norms regarding degree programs in all documents and to complete various program steps in a timely fashion.

Please take some time to review this material to become familiar with the details of the program. You are responsible for familiarizing yourself with the contents of this Handbook, as well as the policies outlined in the Graduate Policies and Procedures Bulletin.

Please also check the MCE website for the most updated Policies and Procedures information specific to the MCE: http://morgridge.du.edu/handbooks-forms/mce-policies-procedures/

The University of Denver and its programs are accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC) and by other major accrediting agencies.

The University of Denver is an Equal Opportunity Institution. It is the policy of the University not to discriminate in the admission of students, in the provision of services, or in employment on the basis of race, ethnicity, color, religion, sex, national origin, age, marital status, veteran status, sexual orientation, gender identity, gender expression, genetic information, or disability. The University prohibits all discrimination, harassment and retaliation, and complies with all applicable federal, state and local laws, regulations and Executive Orders.

Inquiries concerning allegations of discrimination based on any of the above factors may be referred to the University of Denver Office of Equal Opportunity/ADA Compliance, Mary Reed Building, Room 422, 2199 S. University Blvd., Denver, CO 80208. Phone: 303-871-7436. Fax: 303-871-3656. For more information, please call the above number or see the website at http://www.du.edu/equalopportunity/titleix/. You may also contact the Office of Diversity and Equal Opportunity/ADA Compliance with concerns regarding determinations of religious or disability accommodations and /or issues about access.

About the Child, Family and School Psychology Program

CFSP students are accepted into one of three degree programs:

- Master’s degree (M.A.) in Child, Family, and School Psychology
- Educational Specialist (Ed.S.) degree in School Psychology, with an option of obtaining an additional concentration in Early Childhood Special Education
- Doctoral degree (Ph.D.) with two distinct tracks:
  - School Psychology Licensure program
  - Pathway for Ed.S. professionals

CFSP graduates of all degree programs have career opportunities across a broad range of educational, medical, research, or treatment-oriented service systems at the local, state, and national levels. In addition, doctoral students are prepared for administrative, supervisory, and teaching and research positions in institutions of higher learning.

Our curriculum provides a strong foundation and core knowledge base in developmental, psychological, and learning theories, general and special education, and legal, ethical and professional standards of practice. Professional skills and advanced training are required in research, measurement, program evaluation, assessment, prevention, intervention, and consultation with family, school and community professionals. All CFSP degree programs involve innovative, integrative, closely supervised practice experiences during coursework and independent field experiences that begin the first year. Ed.S. and Ph.D. School Psychology Licensure track degree students complete a culminating year-long internship where they gain additional supervised experience. Practice experiences are designed as a developmental Chain of Relevant Experiences (CoRE) where students progress during coursework and through supervised field placements, initially as Critical Observers, then as Directed Participants, then as Active Contributors, and finally as Independent Practitioners.

These progressive experience levels are defined as follows:

- **Critical Observers:** Students acting as Critical Observers engage in activities that provide them with the opportunity to increase their knowledge base by linking theory and empirically based concepts through observational activities. These activities challenge the students to integrate information while critiquing current practices.

- **Directed Participants:** Students acting as Directed Participants engage in activities that are specifically outlined and directed by the faculty in order to address professional skill development and enhancement. The tasks include but are not limited to role play, simulation activities and live supervised experiences in an on-campus clinic.

- **Active Contributors:** Students acting as Active Contributors engage in professional activities that are managed and dictated by needs and policies of the field placement. These activities, developed collaboratively and completed under the
supervision of a faculty member and site supervisor, bring about a specific result that adds to the productivity of the field placement.

- **Independent Practitioners:** Students acting as Independent Practitioners engage in activities in which they apply advanced skills through self-initiated and self-governed professional engagement within a network of collegial supervision.

CFSP students are encouraged to participate in professional research, advocacy, and service at local, state, national or international levels for the benefit of families, children, and youth. There are multiple opportunities to engage in collaborative innovative research projects that offer in-depth expertise and exposure to critical issues in the field. Individual research interests are supported through strong faculty mentoring and advising that facilitates professional relationships and expertise. Students can take coursework from other programs housed within and outside the Morgridge College of Education, including quantitative and qualitative research methods, curriculum and instruction, school administration, social work, and counseling. Finally, CFSP students can gain valuable practical and work experiences at an on-campus clinic, the Fisher Early Learning Center, or at several local public and private partnership schools.

**Accreditation**

The Ed.S. degree and School Psychology Licensure Ph.D. degree programs are fully accredited by NASP. Graduates of approved degrees are assured eligibility for the National Certificate in School Psychology (NCSP), pending the completion of an internship consistent with NASP standards and the attainment of a passing score on the National School Psychology Examination administered by the Educational Testing Service (ETS) as a part of the Praxis II Series. For further information on NASP, please visit [http://www.nasponline.org/certification/NASPapproved.aspx](http://www.nasponline.org/certification/NASPapproved.aspx)

The School Psychology Licensure Ph.D. degree program is in the process of applying for American Psychological Association (APA) approval.

**Program Philosophy and Mission**

Our Program philosophy and mission are aligned with the Morgridge College of Education (MCE) vision “to train global leaders who employ innovative and effective approaches to advance learning throughout the lifespan, educational change, and social equity.” Our Program philosophy is built upon a scientist-practitioner model of training emphasizing ecological, family-sensitive, prevention-oriented, empirically valid practice, and the highest standards of ethics and professionalism. We believe in a full consideration of human development and pedagogy, sensitivity to diverse human experiences and cultures, a focus on early prevention and supportive intervention, collaborative problem-solving, and the promotion of family involvement in human development and education.

Our Program mission is to provide students with the knowledge and skills relevant for collaboration with diverse families, students, educators, and professionals to meet the educational and mental health needs of all students and families within a rapidly changing, global society based on a strong understanding of the interrelationship between environmental, neurobiological, and cultural influences on development.
Our program aligns with the student expectations of the University as a whole. Please review the DU Honor Code [here](#) for more information.

**Program Goals and Objectives**

Our Program goal is to prepare highly competent, collaborative, ethical, and self-reflective scientist-practitioners who can problem-solve and share decision-making with others to optimize social-emotional, cognitive, academic, and behavioral outcomes for typically and atypically developing children and youth.

Ultimately, the CFSP Program strives to produce professionals who are competent Consumers, Collaborators, Interventionists, and Advocates as they work on behalf of individuals, families, schools, and communities. These competency areas are defined as follows:

- **Consumers**: able to apply, translate, and expand upon scientifically-based pedagogy and professional practice;

- **Collaborators**: able to collaborate in strengths-based, problem-solving, transdisciplinary teams with families, teachers, administrators, and other school and community personnel and to demonstrate appropriate interpersonal relations and professional dispositions and work characteristics;

- **Interventionists**: able to employ data-based decision-making and systems thinking that links assessment outcomes to effective individual, family, and group change and to deliver preventative, remedial strategic accommodations, intervention, and crisis services in a timely and professional manner;

- **Advocates**: able to advocate for the needs of children and families, to respect the dignity and worth of all persons, to exhibit compassion and self-awareness, and to demonstrate strong listening, oral and written communication skills.

As an extension of our philosophy, mission, and goals, graduates of the CFSP Program must demonstrate proficiency in the following performance objectives, which align with our College mission and goals, and with standards of professional training as articulated in *Standards for Training and Field Placement Programs in School Psychology* (NASP, 2006) and *Professional Standards of Practice for the Division of Early Childhood* (DEC, 2008).

Each objective is also aligned with one of the four above-mentioned competency areas, which are used to evaluate student progress in the Program.

Students who graduate from the CFSP Program are expected to demonstrate:

- Application of contemporary, scientifically-based knowledge of typical and atypical development within the core areas of cognition and learning, language and communication, motor and movement, social-emotional, and adaptive behavior. (*Consumer*)
• Family sensitive practice that acknowledges the impact of biological, social, cultural, ethnic, socioeconomic, and linguistic factors on the learning and development of students and families from diverse backgrounds. (Advocate)

• Collaborative problem-solving with school, family, and community professionals leading to practical applications of human learning and development theory and a full continuum of empirically valid prevention and intervention strategies to promote mental health, learning, and physical well-being for students in regular and special education. (Collaborator)

• Recursive data-based decision-making and goal-setting using a broad array of assessment approaches, the results of which are functionally linked to program interventions and services that result in measurable positive academic, social-emotional, and behavioral outcomes. (Interventionist)

• The ability to design, implement, and appraise a continuum of universal, targeted, and intensive individual, group, family, classroom, district, or community mental health agency interventions and educational services intended to create and maintain safe and supportive environments for learners of all abilities and with diverse needs. (Interventionist)

• Program development and evaluation that include, but are not limited to, progress monitoring, outcome accountability, and formative and summative evaluation of school, family, and community partnerships to enhance academic, social-emotional, and behavioral outcomes for students. (Collaborator)

• The ability to appraise and communicate empirical evidence and literature based on a thorough understanding of research design, measurement, and statistics. (Consumer)

• Ethical, legal, and socially responsible practice in the professional fields of School Psychology and Child and Family studies that reflects current knowledge of public policy, federal and state legislation and regulations, and a strong professional identity. (Advocate)

• Shared decision-making that utilizes information sources and technology to safeguard and enhance services and promote change at the individual, family, classroom, building, district, or community level. (Consumer)

• Advocacy that promotes wellness and ensures that prevention of learning, emotional, and behavior problems commands as much attention, effort, and resources as remediation. (Advocate)

General Information and Requirements

Advisors and Advising

Upon admission to the Program, new students are assigned a faculty advisor who collaboratively directs all degree and curriculum decisions. Students and their faculty advisors develop an official coursework plan of study that is signed by both the student and
advisor and officially put on file. Students are also expected to meet with their faculty advisor minimally once each quarter during the remainder of their program to discuss progress in the program and career goals. All students also are required to schedule an annual performance feedback advisement. Students are responsible for scheduling all advisement and annual performance feedback meetings and are encouraged to seek out regular times to meet with their advisor for guidance on professional issues. Students are expected to keep their advisors updated on any substantial change or personal needs with regard to their degree program.

Distributed Email List and Communication
All students are automatically assigned a University e-mail address upon entry into the program which must then be forwarded to a preferred email account. This e-mail address is entered in the MCE list and lists related to your program, and will be used to send Program-specific and MCE communications. Students are responsible for checking email regularly for critical information on scheduling, deadlines, conferences, field placements, and job opportunities, etc. Students are responsible for notifying the Department Chair of any changes in address or other contact info within the first week of classes each quarter.

Fingerprinting
Due to the enactment of Colorado Senate Bill 06-176, students are required to be fingerprinted at the outset of the CFSP program and prior to any field experience. Each school and/or district has different requirements on fingerprinting and students must comply with those requirements.

Prior to the first week of study, students are required to submit to a criminal history record check in anticipation of field experiences in school settings and his or her eventual application for a Colorado Educator License.* This process must begin prior to Orientation.

You will need to submit your fingerprints to the Colorado Bureau of Investigation (CBI) for the purpose of a criminal background check. Please read the instructions for having your fingerprints taken and submitted to the CBI: https://www.cde.state.co.us/cdepof/fingerprints

When your fingerprints have been taken, mail your fingerprint card to:
Colorado Bureau of Investigation
690 Kipling Street, Suite 3000
Denver CO, 80215

Students in some practicum and/or internship sites may need additional fingerprinting to comply with federal or state law(s). The costs of fingerprinting, background checks, and other charges required by the site will be the responsibility of the student.

Professional Membership
Students are required to join one national and preferably one state professional organization during their graduate career. They are also encouraged to attend annually at least one regional or national conference related to their professional career. A list of professional organizations at the national level include, the American Educational Research Association (AERA), the American Psychological Association (APA), the National
Association of School Psychology (NASP), the National Association for the Education of the Young Child (NAEYC) and the Council for Exceptional Children Division of Early Childhood (DEC). At the state level, recommended professional organizations include but are not limited to the Colorado Council for Exceptional Children (CCEC), and Colorado Society of School Psychologists (CSSP).

**Malpractice Insurance**

Students are encouraged to purchase personal malpractice insurance. Most courses other than research classes have a practice and/or field component. While the University provides some coverage, students can obtain affordable additional malpractice insurance through their membership with the American Psychological Association, the Council for Exceptional Children, or the National Association of School Psychologists.

**Workers’ Compensation Procedures**

Students may be covered under the Workers’ Compensation statute if injured on the job performing an essential duty of the job during the course of their fieldwork. The University of Denver - Enterprise Risk Management office manages the University’s Workers’ Compensation Program. If injured in the scope of conducting essential duties related to an internship, the student should seek medical treatment according to state and federal guidelines.

**STEPS TO START YOUR WORKERS COMPENSATION CLAIM (see also [www.du.edu/risk/](http://www.du.edu/risk/))**

1. Seek treatment immediately if you have a serious or life-threatening injury
2. You and your supervisor should complete and return to Risk Management as soon as possible:
   a. Employee First Report of Injury (Intern)
   b. Supervisor’s Report
   c. A signed copy of the Provider Letter (Intern)
3. Send the forms to Enterprise Risk Management
   a. Email: risk@du.edu
   b. Fax: 303-871-4455
4. Call Enterprise Risk Management at 303-871-3810
5. For non-life threatening emergency medical treatment in the Denver Metro area, please select one of the following clinics for medical care. Hours are 8 am to 5 pm, M-F.

<table>
<thead>
<tr>
<th>Health One</th>
<th>Health One</th>
<th>Concentra Medical Centers</th>
<th>Centura Centers for Occupational Medicine</th>
</tr>
</thead>
</table>

If a student’s internship is outside of the Denver Metro Area, they should seek treatment immediately at her/his local emergency room or healthcare facility, when possible please use Concentra or HealthOne as they provide better continuity of care, followed by contact to Risk Management for further assistance within 24 hours. Interns **may not** transport injured parties unless on-scene EMT’s have provided their OK. For more information, see the Workers’ Compensation Procedure at [http://www.du.edu/risk/wc/index.html](http://www.du.edu/risk/wc/index.html)
Developing a Coursework Plan (CWP)

Students must complete an official coursework plan in consultation with an advisor during the first quarter they are officially enrolled, and must place an official coursework plan on file with the Academic Services Associate (ASA) by the end of the first quarter. An official coursework plan is one that is signed by the student and the student’s advisor. A student’s coursework plan serves as a plan leading to graduation and must be kept on file. A coursework plan can be revised at any time with advisor approval. When modifications are made, a new official, re-dated, and re-signed coursework plan must be resubmitted with all changes and be attached to the original plan in the student’s file. When a student applies for graduation, the student’s transcript is checked against the coursework plan to ensure that the student has taken all the required courses listed on their plan. This is the only time that such a check is officially made by the University. Students are expected to track their progress toward meeting the degree requirements and keep their own copies of all documents throughout the duration of their study.

Personal Difficulties

In general, the CFSP faculty will support students through a short-term crisis and provide activities to help them recoup missed learning experiences if no more than two classes are missed. Occasionally, however, a student may experience a long-term crisis, or have a series of frequent acute difficulties. Personal difficulties may not be used as an excuse for unethical or irresponsible behavior. Concerns can exist due to any or all of the following:

- The student is unable to attend class regularly over an extended period of time;
- The student is frequently poorly prepared (or unprepared) for class or other learning activities;
- The student is significantly behind in coursework or other benchmarks for the program;
- The student has difficulty participating in required group learning activities, team projects, with clients, or at community sites.

It is the position of the Program that when such situations exist, the student and faculty should objectively examine the situation and determine whether it is appropriate to take a leave of absence until the educational experience can be given appropriate attention. In such instances, the student’s advisor will consult with involved faculty and the Department Chair, and will then meet with the student to assist him/her to clarify and evaluate options. If the student so chooses, a Leave of Absence form will be completed. If the student opts to remain active in the program, the Program faculty will create a probation plan to clarify expectations and student responsibilities.

Probation and Dismissal

For general information on the policies and procedures related to probation and termination in the Child, Family, and School Psychology Program in the Morgridge College of Education (MCE), please see the MCE Policies and Procedures page, section “MCE General Academic Probation Protocol and Dismissal Protocol” at:
Students should also access the *DU Graduate Bulletin*, section “Academic Standards” for a comprehensive description of situations that warrant probation, dismissal, and termination. This information can be found at:

[http://bulletin.du.edu/graduate/academicpoliciesandprocedures/academicstandards/](http://bulletin.du.edu/graduate/academicpoliciesandprocedures/academicstandards/)

For information on program-specific expectations, please refer to the rest of this Handbook and the practica and internship manuals.

A written remediation plan must be developed for any student placed on probation that details specific actions to be taken within a specified timeframe. Such actions can include, but are not limited to, additional or repeated coursework or fieldwork; skill building assignments outside of the regular class; psychological evaluation; professional counseling/psychotherapy; remedial coursework to enhance writing, quantitative, or oral presentation skills; or other appropriate remedial actions. Failure to progress after reasonable intervention or a failure to comply with the probationary plan and timelines can result in dismissal from the Program. For egregious violations of expectations, such as unethical or unprofessional behavior, a student may be immediately dismissed from the program.

**Grievance Policy**

If a student has a grievance involving another student, a faculty member, or a program review decision, it is preferable for the student to work it out with that person. Students’ advisors may act in a consultative role in this process. If student cannot work out the grievance directly with the faculty member or student, the student may direct the concern to their Faculty Advisor personally or in writing. If the grievance involves the Faculty Advisor, the student may direct their concern to the Department Chair. If the grievance is not solved to the student’s satisfaction, the student may seek resolution of complaints or grievances through the Department Chair, then the Associate Dean, and finally the Academic Grievance Procedure during their enrollment at DU. Explicit information about the grievance policy can be found in the Graduate School Bulletin -

[http://www.du.edu/registrar/programs/bulletin.html](http://www.du.edu/registrar/programs/bulletin.html)

**Letters of Recommendation**

Faculty members receive numerous requests to write letters of recommendation for scholarships, fellowships, internships, or employment. The typical procedure to ask for such letters is to alert the faculty member about your request at least two weeks in advance of any deadline. A student should provide an updated vita, description of the requested position or award, and should complete all required information on any forms so that the faculty member need only add their recommendation and signature. It is customary for faculty to send letters directly to the requesting agency. Thus, students should provide a list of mail or email addresses where each letter should be sent. Faculty general do not supply students with copies of recommendation letters.
**Professional Development**
The CFSP Program provides continuing professional development opportunities based upon the needs of practicing school psychologists, early childhood special educators, and allied professionals. The Program has a strong commitment to provide ongoing opportunities for professional development via annual workshops that target specific areas of need, collaboration with other training programs in the state to address issues in the field, and an ongoing partnership with the Colorado Department of Education to anticipate areas of increased need.

**Degree Requirements in CFSP**

**Education Specialist Degree (Ed.S.)**
The CFSP Educational Specialist degree is a three-year program that prepares professionals in all aspects of School Psychology services for children and families from birth to age 21, in school or community settings. This degree requires two years of coursework and a third year 1200-hour full-time internship. All graduates of the Ed.S. program are eligible for the National Certificate in School Psychology and Colorado Department of Education license in School Psychology after the successful completion of all degree requirements. The Ed.S. degree requires a minimum of 90 quarter hours. Students may be allowed to transfer in up to 15 graduate credits toward the degree. Please see the suggested Course Sequence (Appendix A) and Ed.S. Coursework Plan (Appendix B).

**Ed.S. with Early Childhood Special Education Concentration (Ed.S. with EC SPEC)**
Through the addition of 12 hours of integrated core and practical coursework beyond that required for the Ed.S. degree, students can graduate with an Early Childhood Special Education Concentration. Please see the Early Childhood Special Education Concentration Coursework Plan (Appendix C).

**Academic Policies**

**Course Attendance**
100% attendance in all classes is expected. In a traditional 10-week quarter, you may miss up to one class session. A second missed class will result in reducing your final grade by a full-letter grade. Each additional class missed will result in an additional grade-letter deduction. Please refer to syllabus for policies regarding participation points. Attendance policies in condensed or hybrid-format courses may differ. Please consult the course syllabus.

In the event that it is necessary to miss a class, students must contact the instructor at least three days prior to the class session. In the case of an emergency in which prior notification is impossible, apprentice teachers should contact the instructor within 24 hours of the class meeting time. It is the student’s responsibility to contact the instructor
about missed course content. Moreover, every third tardy (per course) will count as an absence.

We ask that you consider missing classes carefully, as this policy will apply regardless of the reason for absence.

**Grades**

CFSP is a performance-based program; therefore, faculty will recommend students for a state teaching license if he or she has met all standards at the proficient level.

In a performance-based program, grades serve a different purpose than they do in traditional academic program. In a performance-based program your grades do not directly affect our decision to recommend you for licensure, advancement in field experiences, or continuation in the program. In a performance-based program, grades are indicators of the following matters: (1) your timely progress in understanding and applying the knowledge base needed to perform at the proficient level, (2) your intellectual engagement with the process of becoming school psychologist, (3) your ability to think, speak, and write at a graduate level.

You must maintain at least a 3.0 GPA throughout the program. If your grade point average falls below 3.0 at any time during the program, you may be removed from fieldwork placement and will be placed on probation. A grade lower than B- renders the credit unacceptable for meeting CFSP degree requirements. If you receive a grade of a C+ or lower, you will have to repeat the course.

An Incomplete "I" is a temporary grade which may be given at the instructor’s discretion to a student when illness, necessary absence, or other reasons beyond the control of the student prevent completion of course requirements by the end of the academic term. Because courses are cumulative, students may not be allowed to begin/continue academic courses or fieldwork placements until all grades of Incomplete have been resolved. It is the responsibility of the student to initiate the incomplete process by immediately communicating with the instructor prior to the end of the quarter. This form may be downloaded from the Registrar.

**Comprehensive Examinations: Praxis II**

Students in the Ed.S. and in the Ph.D. School Psychology Licensure degree program must take and pass a national professional certification exam as a culminating evaluation of their graduate program, and in order to receive most state’s licensure to practice as a school psychologist. This exam is offered through Educational Testing Services (ETS) and is endorsed by the National Association of School Psychologists (http://www.nasponline.org). The Praxis II/NASP exam is usually taken at the end of the second year of the program or in the summer before Internship. A passing PRAXIS score is required before starting internship, unless an exception has been granted. Students register for the exam on their own. Information on exam registration, including when and where the exam is offered can be found at the ETS website (http://www.ets.org/praxis).
Typically, the Praxis II/NASP exam is offered six times per year in Colorado and registration is required at least one month in advance. All students must meet or exceed the passing score of the state in which you plan to practice in order to graduate. In Colorado, this score is 147 on the electronic version of the exam and 165 on the paper based version of the exam, which is consistent with the NASP requirement. Students must submit official NASP exam scores (total and sub scores) to CFSP prior to starting internship.

**Field Requirements**

In order to participate in any field experiences, students must be approved by faculty to do so. The first consideration is the wellbeing of children and adults with whom the student would be interacting. For this reason, not only must a CFSP student be in good academic standing in order to participate in field experiences, he or she must demonstrate appropriate professional and interpersonal behaviors. These include:

- Punctuality and attendance
- Attendance at training and supervisory sessions
- Timeliness with reports and assignments
- Professional appearance and demeanor, including speech
- Consistency, perseverance, industry, and initiative
- Flexibility; adaptability to novel and unexpected situations
- General attitude and interest in program and assignment
- Insight, sensitivity, commitment, and active participation
- Poise, tactfulness, and rapport with families, children, and others
- Preparation and organization
- Ability to handle constructive criticism professionally
- Ethical practice

Based on faculty judgment, a student can be denied or removed from a field placement at any time; concerns about professional and interpersonal behaviors can be grounds for probation or dismissal. See Appendix F for recording protocol.

**Community Practicum**

**Community Practicum Description**

Community Practicum is a supervised experience designed to enhance and extend knowledge and skills developed during ongoing assessment, intervention and consultation coursework. During Community Practicum, students act as Directed Participants, engaging in activities specifically outlined and directed by faculty to address professional skill development and enhancement. The tasks include, but are not limited to role-play, team activities, and actual collaborative participation in authentic client cases. Most students complete the Community Practicum during their first year at both the Counseling and Educational Services Clinic (CESC) located in Ruffatto Hall and at an off-campus school partnership site. Further descriptions and required activities of the clinic can be found in the clinic section.
Community Practicum fulfills program and training goals while simultaneously providing vital community services. During Practicum, students receive real-time and videotaped supervision from a licensed faculty Clinic Supervisor and other licensed community professionals who provide in-vivo supervision and guidance as students engage in assessment and diagnosis of social-emotional, cognitive, learning, and behavioral needs and in consultation with parents and school or community professionals. Beginning level students work under the supervision of the Clinic Supervisor, and with advanced peers to develop their clinical skills.

**Community Practicum Requirements**
Written formal evaluations of a student’s practica performance and areas in need of further improvement are completed at the end of each quarter by the Clinic Supervisor and other program faculty. The Community Practicum experience extends over 3 quarters.

Mastery of specific diagnostic, interviewing, report writing, and teaming skills must be evident in order for a student to be recommended for placement in a school or community practicum. Advancement to School Practicum depends on satisfactory Clinic Supervisor performance ratings and the completion of the Continuing Professional Development Plan and Intent to Complete a School Psychology Community Practicum forms which contain individualized professional development goals that are collaboratively developed with the Clinic Supervisor. For students who are not deemed ready to move onto the School Practicum experience, the Department Chair and CFSP faculty will develop a probation plan that may include repeated coursework, extended or additional clinic experiences, or other appropriate remedial actions. Forms mentioned above, along with specific performance expectations, descriptions of expected activities, supervision requirements, and evaluation procedures can be found in the *CFSP Clinic Manual*.

**School Practicum**

**School Practicum Description**
School Practicum is an advanced supervised experience designed to extend knowledge and skills and to enhance critical intervention competencies that are addressed in simultaneous coursework. During School Practicum, students acting as *Active Contributors* engage in professional activities that are managed and dictated by needs and policies of the field placement. These activities, developed collaboratively and completed under the supervision of the faculty and site supervisors, bring about a specific result that adds to the productivity of the field placement. School Practicum is typically taken the year after successful completion of Community Practicum. As well as working in the clinic, students are assigned to an approved Practicum site in consultation with the assigned faculty Practicum Supervisor. Students must commit to a designated Field Practicum site for one to two days per week for the school year. School Practicum is completed across three quarters.
Most approved Practicum sites are located within driving distance of the University and are scattered throughout the greater metropolitan Denver area. School Practicum sites must meet all standards outlined by NASP, DEC, and CDE, including appropriately credentialed supervisors who are able to provide one hour minimum of weekly face-to-face supervision and who also agree to help oversee all Practicum activities at the site. Field sites are selected that allow students to experience working collaboratively with students and families across regular and special education settings and to be involved in a range of site-based activities. Students are expected to design, conduct, and evaluate intervention and prevention services and consult with parents, teachers, and other school or community agency personnel.

**School Practicum Requirements**

Students in consultation with the faculty Practicum Supervisor select and make necessary arrangements for their own site placements, which must be officially approved by the Department Chair through the completion of a Field Practicum Supervision Memorandum before a student begins a Practicum placement. Students are informed that a verbal acceptance of a Practicum placement is considered binding and thus, breaking such an agreement is considered to be in violation of professional standards. Exceptions will be considered only for extenuating circumstances.

During School Practicum, students complete a series of activities to meet explicit Program and professional development requirements. Students are expected to act in strict accordance with ethical principles established by the National Association of School Psychologists (NASP) and the Division of Early Childhood (DEC). Practicum students are supervised by an appropriately credentialed on-site field supervisor and also receive supervision during a weekly seminar class taught by a University faculty member. The University Supervisor meets with the student and the Field Supervisor at the beginning, middle, and end of the field placement to develop and then evaluate individual performance goals and objectives, and also visits at other times to observe specific student activities. Students maintain a weekly log of hours and submit a supervisor-signed cumulative summary of all Practicum hours each quarter.

Written formal evaluations of a student’s Practicum performance objectives and goals, current competencies, and areas in need of further improvement are completed at the midpoint and at the end of Field Practicum by both the Field Supervisor and the student (self-assessment). These evaluation results are then shared with the University faculty who will assign a grade and determine a student’s readiness for Internship. In order to advance to internship, students must have successfully completed all prior coursework; receive all satisfactory School Practicum supervisor performance ratings; and complete the Goals and Continuing Professional Development Plan and Intent to Complete a School Psychology Internship, which contain individualized professional development goals collaboratively developed with the Field Supervisor. For students who are not deemed ready to move onto the Internship experience, the CFSP faculty and Department Chair will develop a probation plan that may include repeated coursework, extended or additional Practicum experiences, or other appropriate remedial actions.
The forms mentioned above, along with specific performance expectations, descriptions of expected activities, supervision requirements, and evaluation procedures can be found in the *CFSP Practicum Manual*.

**School Psychology Internships**

**School Psychology Internship Description**

Internship is an advanced, off-campus, culminating supervised experience. Internship is designed to broaden one’s professional skills, to provide advanced clinical practice activities, and to enhance one’s professional identity and readiness for independent practice. During Internship, students act as *Independent Practitioners* and engage in activities in which they apply advanced skills through self-initiated and self-governed professional engagement within a network of collegial supervision. While students are expected to function primarily as *Independent Practitioners* during Internship, they still are required to receive face-to-face, weekly supervision from a qualified supervisor. Internship is typically completed during one entire academic year, but also can be taken over two consecutive years.

Numerous approved School Psychology Internship sites are located in the metropolitan Denver area, surrounding communities, or nationally. Students identify a preferred Internship site and must confirm that the site meets all Program expectations and standards outlined by NASP, DEC, and CDE, including appropriately credentialed supervisors. An Internship Supervision Memorandum letter outlining University, Field Supervisor, and student roles and responsibilities must be signed and approved by the Program Director before a student begins an Internship placement. Acceptance of an Internship placement is considered binding and students who break such an agreement are considered to be in violation of professional standards, except under extenuating circumstances.

**School Psychology Internship Requirements**

Internship requirements are aligned with professional competencies required for state and national School Psychology Licensure. Ed.S. candidates complete a minimum 1200-hour Internship. Students must engage in all Internship activities in strict accordance with the ethical principles established by NASP and DEC. Although students function as *Independent Practitioners* during Internship, they must receive a minimum of two hours of supervision per week from a qualified Internship Field Supervisor with a current license in School Psychology. Internship placements must allow a student to work with at least two different age groups (i.e., infant, preschool, elementary, middle, or high school levels) and must involve both general and special education populations. Internship casework should reflect a wide array of School Psychology roles and functions. Internship students enroll for Internship credit and are supervised also by a University faculty member. Internship students must submit monthly and quarterly time sheet logs to their University Supervisor and must participate in quarterly discussion seminars with the University Supervisor and other Internship students. These group online discussion sessions are used to share and review professional
activities and issues. At the beginning of Internship, students collaborate with their
Field and University Supervisors to outline professional goals and activities.

Written mid-term and end-of-placement evaluations of student competencies and
attainment of professional goals are completed by the student and Field Supervisor and
then are shared with the University faculty who will assign a grade for completion of all
Internship placements. Internship students must maintain a monthly time sheet log and
submit a cumulative summary of all Internship hours at the end of each quarter. A
cumulative Internship grade is entered after documentation of completed hours and
satisfactory performance for the entire Internship. Students who do not successfully
complete Internship may be required to retake Internship at the same or at a new site
based on a probation plan developed by the CFSP faculty and Department Chair. Forms
mentioned above, along with specific performance expectations, description of
expected activities and assignments, supervision requirements, and internship
evaluation procedures can be found in the CFSP Internship Manual.

**Internship Registration Policy**

Per program requirements, students must register for CFSP 4355 Internship for fall,
winter, and spring quarters of the internship year. Students will continue to register for
internship credit each quarter that they are on internship. Students are required to do
as follows:

You must obtain program approval every academic quarter for clearance to register for
the field experience course (CFSP 4356) by contacting the Department ASA who will
confirm that you are eligible for field experience registration. She/he will contact you
via email once she/he has determined that you are eligible to register for CFSP 4356.
You must then register for CFSP 4356 School Psych Field Experience EVERY academic
quarter during your internship. This is listed in the regular course offerings for CFSP
students. You will need to go online and register yourself each academic quarter (fall,
winter, and spring) to reflect that you are involved in the off-campus field experience.
This course looks like a regular course but it is not graded. Once you register for this
course, CFSP 4356 School Psych Field Experience, you will be “flagged” as a full time
student even though you have only 1 credit for that quarter (recall that you must
register for CFSP 4355 each quarter as well). You will be required to pay the necessary
DU fees associated with this course.

Please also note that there are two sections of CFSP 4356. Section 1 is reserved only for
a student who has prior approval to complete the required internship on a half-time
basis. Please note that this section will rarely be utilized. Section 2 is reserved for those
completing the internship field experience on a full-time basis. Section 2 is most likely
the section of CFSP 4356 that all CFSP internship students will utilize. It is very
important that you register for the correct section so your status will be accurately
reported and that you will be classified as appropriately for financial aid purposes; it
will also allow you to receive the appropriate amount of financial aid and defer
potential loan repayments.
Performance-Based Assessment and Accountability

The CFSP Program uses a variety of formative and summative information to systematically evaluate students. As students acquire increasing levels of competency as Consumers, Collaborators, Interventionists, and Advocates (see section on Program Philosophy and Mission), student progress is comprehensively and continuously evaluated throughout the Program using a variety of methods to assess individual progress across stated performance objectives and competency areas. Our student performance evaluation progression begins at entry, where normative exams (i.e., GRE), prior coursework, grades, and relevant life experiences are examined to evaluate verbal, written, quantitative and professional competence. Professional skills and competencies are closely monitored during the Program through an annual review process that includes a holistic performance review of grades, coursework, curriculum-based assessments, work samples, self-reflective statements, professional accomplishments, professional work dispositions, field supervisor evaluations, and documentation of successful fieldwork. Based on this process, a student may be placed on probation if either academic or professional work disposition deficiencies are noted or if a student’s grade point average falls below a 3.0. All students must successfully complete a summative comprehensive examination at the end of their degree program to gauge attainment of professional knowledge and competencies. In addition to the previously described review process, school psychology student progress is measured in each of the NASP Standard II Domains.

Annual Review and Process

Each year the student is expected to meet with his/her advisor for an Annual Review. This process and the required materials are considered a formal, holistic, cumulative account of professional progress, attributes, and conduct associated with our four Program competency areas of Consumer, Collaborator, Interventionist, and Advocate. The Annual Review process is designed to encourage integrative and personal self-reflection on performance expectations throughout the Program. This process also gives faculty a chance to monitor and recognize the student’s progress and to provide timely, constructive feedback to ensure continued professional success.

A student’s progress in the program is evaluated each year based on a holistic review of critical performance expectations captured through the Annual Review, which contains multiple sources of data and cumulative documents. Multiple sources of evidence are compiled for the Annual Review to reflect progressive evidence of professional competence and independence. Each year the student is asked to include an updated transcript and vita and to review professional dispositions and characteristics not easily captured in course grades. The student also will be asked to summarize and evaluate experiences gained through coursework and field experiences and to develop (or update) a professional identity statement.

Once the aforementioned materials are submitted to the student’s advisor, he or she will review and then present it at a Program faculty meeting. The student is encouraged to set an appointment with his or her advisor to discuss the review. A student who has
made inadequate progress due to academic or professional disposition deficits will be placed on probation or, for extreme violations, dismissed from the program. See Appendix D for the Professional Characteristics and Appendix E for the Cumulative Review Form.

Program, College and University Resources

Child, Family, and School Psychology Student Association
The Child Family and School Psychology Student Association (CFSPSA) is composed of CFSP students across cohorts as well as a faculty advisor that attends the majority of meetings. The association meets at least monthly to discuss issues relevant school psychology as a whole, as well as specifically to the CFSP program. The CFSPSA’s tasks include: planning CFSP social events, helping to coordinate professional conference attendance, and supporting CFSP students throughout the program. All CFSP students can attend the meetings and are encouraged to become involved in any way that they can. Typically through the student association, student mentors in the second and third year program are assigned to first year students. Further, each year there are opportunities to be elected as specific positions within the association (e.g. president, treasurer, social chair, representatives to NASP, representatives to COESA, representatives to GSAC, and a faculty liaison). Please view the CFSP portfolio at http://portfolio.du.edu/CFSPSA for more information.

Counseling and Educational Services Clinic
The Counseling and Educational Services Clinic (CESC) is the umbrella clinic over the Counseling Psychology Program Clinic and the Child, Family, and School Psychology (CFSP) Clinic. The CFSP Clinic is housed on the first floor of Ruffatto Hall and provides an array of low-cost assessment, consultation, and intervention services to children, adolescents, families, and schools in the Denver metro area. Formal and informal approaches are used to assess developmental delay, academic or intellectual giftedness, learning and reading disability, attention deficits, and other behavioral and emotional concerns that may be interfering with successful school, home, and social performance. Clients receive individualized feedback and recommendations to improve their developmental, educational and life circumstances. The CESC consists of several client rooms and a group observation room equipped with video camera links so students may be observed in real time by classmates and instructors during assessment, consultation, and counseling sessions. The CESC is co-directed by a Licensed School Psychologist who is a faculty member. The CFSP Clinic Director oversees all school-based, educational assessment clinic services and supervises all CFSP students taking their Psychoeducational Clinic Practicum class.

Fisher Early Learning Center
The mission of Fisher Early Learning Center is to provide children with a continuum of learning experiences in an inclusive setting that reflects research based practices,
celebrates diversity and addresses the uniqueness of each child. Through family and community partnerships and high professional standards, Fisher offers a quality program that establishes a foundation of skills and knowledge essential to the development of competent and caring young children. Through partnerships with families and communities, and a commitment to professional development, Fisher will serve as the model for high quality care and education that result in creating an optimal learning environment where all children achieve their full potential. For more information about the FELC visit their website: http://www.du.edu/fisher/. Students may only visit or observe at Fisher Center with instructors permission.

Psychoeducational Assessment Library (PAL)
The Psychoeducational Assessment Library (PAL) houses an array of materials relevant to Psychoeducational assessment and research for use by students and faculty in the MCE. The PAL is a professional library equipped with cognitive, behavioral, and social-emotional assessment measures, protocols, scoring software, training videos and other mental health resources. Materials in the PAL are accessible to currently matriculated, qualified CFSP graduate students enrolled in assessment classes and field-based placements. A list of all PAL resources can be obtained from the Program Coordinator. Procedures for signing out PAL materials are handed out and reviewed in core classes. The PAL is overseen by the Program Coordinator and is staffed by a graduate assistant who posts hours each quarter when students can access PAL materials.

Access and management of test materials: Each school year, before any test is signed out, users must complete and place on file a current, signed PAL User Responsibility Form. Test materials can be checked out for a period of 14 days. Materials must be signed in and out by the same person so they can be checked for completeness. Materials should not be passed from student to student. The original recipient is solely responsible for the condition and inventory of the returned test materials. Students may check out a maximum of 5 tests at a time and cannot sign out any other testing materials until others are returned. One protocol will be provided with each test unless covered under lab fees. There is a charge for any other protocols not covered under student lab fees. Some professors prepare protocol packets for the entire class, but if an assessment class professor has not done so, it is the student’s responsibility to determine what is needed and to pay for protocols before a test is checked out. Computer scoring programs for a variety of the PAL instruments are available in the computer lab, which is open during posted hours.

Guidelines for the use and treatment of materials: Under no circumstances should test library materials be written in or on, underlined, or highlighted. Sticky notes and flags may be placed within the materials but must be removed before returning the materials. Avoid writing on the test manual. Instead, test protocols should be used for highlighting, underlining, and making notes pertaining to testing administration rules. Missing or damaged materials will require that the user (student or faculty) pay the cost of replacing these items. Grades for assessment classes will be withheld for students not returning materials and/or not paying replacement fees.
**Ricks Center for Gifted Children**

The mission of Ricks Center is to provide a dynamic and challenging educational environment that anticipates and responds to the individual intellectual, social, emotional, physical, aesthetic, and cognitive needs of gifted children. Gifted children have the right to an educational environment that meets their unique and challenging needs. When compared with children their age, these students display advanced abilities in general intellectual aptitude, which may be exhibited in specific domains such as creativity, language, mathematics, or science. Gifted children have the ability to learn at faster rates and in greater depth, to find and solve problems more readily, and to understand, manipulate, and connect abstract or seemingly unrelated ideas. These abilities, combined with their intellectual curiosity, emotional intensity, moral sensitivity, playful creativity, and unique learning styles engender the need for a differentiated educational program. For more information about the Ricks Center visit their website: [http://www.du.edu/ricks/](http://www.du.edu/ricks/). Students may only visit or observe at Ricks Center with instructors permission.

In order for a student to become an effective professional he/she must demonstrate academic and professional competencies, as well as professional work characteristics. The following are work characteristics necessary for effective practice as a professional. Directions: Please rate yourself as candidly as possible on each item using the scale provided and also provide an example or two to support your rating.

The shaded rating area is for faculty use. It is important that you consider the ratings in light of your status in your selected program (1st-year, 2nd-year, etc.). Please review your CFSP Student Handbook for program philosophy, mission, goals, and objectives.

**Ratings**

1 – Below expectations: Improvement needed to reach appropriate competency level for year in program
2 – Meets expectations: Exhibits level of competency appropriate for year in program.

Parental Permission Form to Audio/Video Record Students

Dear Parents,

Your school is partnered with the Child, Family, and School Psychology program at the University of Denver. Your child’s classroom hosts a CFSP prospective school psychologist working with students under the supervision of your child’s classroom teacher. Throughout the year, as a tool for becoming an effective school psychologist, the student will collect audio/video samples of his/her interactions.

The purpose of audio/video recording is to provide reflection and feedback for the prospective school psychologist and professional development of CFSP faculty. The school/school district approves the University of Denver performing and sponsoring this program and audio/video recording in your child’s classroom.

With your permission, the audio/video recordings may contain your child’s first name, image, and voice. To protect your child’s privacy, students will be identified only by their first names on any audio/video recording. The audio/video recordings will only be viewed by CFSP faculty, prospective school psychologists and your school’s officials. The audio/video recordings will be used only for the purposes stated and will not be used for any other purpose. The recording(s) will be stored on a secure server at the University of Denver and will be retained indefinitely. Should any information revealed in the audio/video recording be the subject of a court order or lawful subpoena, the University of Denver and/or prospective teacher may not be able to avoid compliance with the order or subpoena. As required by law, any information concerning suicide, homicide, or child abuse and neglect captured on an audio/video recording shall be reported to the proper authorities.

Neither you nor your child is entitled to any compensation or other benefits from participating in the audio/video recording. However, the goal is to improve the educational process and, as a result, children in the future will be helped. The school would like all students in the classroom to participate but the decision to participate is voluntary. No action will be taken against the school, you, or your child, if you decide not to let your child participate. Students who do not wish to participate in the audio/video recording will be excused and if at any point during the audio/video recording, a student does not wish to continue he or she will be removed from the classroom without penalty. An alternate, equivalent learning experience for all students not participating in the audio/video recording will be arranged.

Please read and complete the following section. If you do not return this form by the date specified below, then your child will not be authorized to participate for that portion of time in class of the audio/video recording and an alternate, equivalent learning experience will be arranged. Thank you.

Child’s Name: __________________________________________ Grade: ___________________
[ ] Yes, I have read this form and have been informed in writing by the school that it plans to audio/video record students in ____________ [teacher's name and classroom number] and agree to the audio/video recording of my child.

[ ] No, my child may not take part in the audio/video recording.

Please return this form by (date): __________________

If you have any concerns or complaints about how you or your child were treated by the CFSP program, please contact Dean Karen Riley, Morgridge College of Education, at 303-871-3665 or write to the University of Denver, Morgridge College of Education, Attn: Dean Karen Riley, 1999 E. Evans Ave., Denver, CO 80208.
Prospective School Psychologist Confidentiality Affidavit and Agreement

I, ___________________________ [prospective school psychologist’s name], a student in The University of Denver’s Child, Family, and School Psychology program), understand that the production, receipt or review of audio/video recordings of ___________________________________________________________ [name of School, Teacher and room number], and any information or data related thereto, is for the sole purpose of my participation in the CFSP Program. I agree to keep such audio/video recordings, and any information or data related thereto, confidential. I understand that (i) the audio/video recordings, and any information or data related thereto, are subject to the Family Educational Rights and Privacy Act of 1974, as amended and by applicable state laws regarding the protection of education records and (ii) the use or release of the audio/video recordings, or any information or data related thereto, for any purpose other than as permitted by the written consent of the parent or legal guardian of the students depicted in the audio/video recordings is strictly prohibited. I acknowledge that I fully understand that the release by me of audio/video recordings, and any information or data related thereto, to any unauthorized person could subject me to criminal and/or civil penalties, where applicable, imposed by law and/or disciplinary procedures of the University of Denver.
