Transportation Update

➢ Dockless Bikeshare Pilot

➢ Campus Shuttle Pilot

- Adjustable seats to accommodate user preferences
- Strong, durable and light aluminum alloy body
- GPS enabled, mobile-synced, smart lock. Data can be used to inform transportation planning
- Unique bicycle identification number
- LED dynamo headlight, visible from 500 ft
- Red back reflector to alert motorists and pedestrians
- Reliable and easy to use brake
- Kickstand for upright parking without a docking station
- Solid tire that never deflates
Adjustable seats to accommodate user preferences

Strong, durable and light aluminum alloy body

Unique bicycle identification number

GPS enabled, mobile-synced, smart lock. Data can be used to inform transportation planning

LED dynamo headlight, visible from 500 ft

Red back reflector to alert motorists and pedestrians

Solid tire that never deflates

Reliable and easy to use break

Kickstand for upright parking without a docking station
1. **Download** the “ofo” app.

2. **Unlock** by scanning the QR code (black square).

3. **Ride!** Park the bike in a marked DU parking location. Slide lock back into place to end ride.
