This camp experience fosters a love for the beautiful game and builds confidence in theatre arts. All skill levels are welcome! That's because soccer and theatre are universal languages for joy and human connection.

In the mornings, our focus will be small-sided "street soccer" skills and games so that kiddos can get confident with the pick-up soccer format as it's played worldwide. We will even learn some phrases in different languages so that they can feel sure joining a game anywhere!

In the afternoons, our focus will shift to the theatre, emphasizing the universal power of storytelling, movement, and improvisation. Creating original theatre is a great way to build confidence and a proven method of boosting creativity, making new friends, and raising uncertainty tolerance.
