

Candidate Competency at Completion

The Morgridge College of Education has provided teacher licensure exam pass rates for the following cohorts of the initial Teacher Education Program (TEP): 2021-22, 2022-23, 2023-24, and 2024-25. Candidates must pass Colorado content specific exams on the first or second attempt to be considered as “passed.”

Available TEP comparison data at the state level has also been provided (source: <https://title2.ed.gov/Public/Home.aspx>; from “Select a State” dropdown, select Colorado; on “Providers” tab, select “Overall Pass Rates on Assessments Required for a Teaching Credential” from drop down menu; select “University of Denver” from “View Provider Information” list on the side, organized in alphabetical order).

These pass rates are calculated using the following method:

- # of completers in a cohort year who passed exams / # of total completers in cohort year taking exams
