

# Educational Leadership and Policy Studies Student Handbook

**2016-2017**

UNIVERSITY *of*  
DENVER

---

MORGRIDGE COLLEGE OF EDUCATION

The Educational Leadership and Policy Studies Program *Student Handbook* provides admitted students with information to assist them as they progress through the requirements of MCE degrees and certificates. In addition to this program publication, the student should become familiar with the [MCE Policies and Procedures](#) and the University-wide, [Graduate Policies and Procedures](#). Although every effort has been made to ensure agreement among these documents, it is the students' responsibility to read the norms regarding degree programs in all documents and to complete various program requirements and procedures in a timely fashion.

The University of Denver and its programs are accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC) and by other major accrediting agencies for specific degree programs.

The University of Denver is an Equal Opportunity Institution. It is the policy of the University not to discriminate in the admission of students, in the provision of services, or in employment on the basis of race, ethnicity, color, religion, sex, national origin, age, marital status, veteran status, sexual orientation, gender identity, gender expression, genetic information, or disability. The University prohibits all discrimination, harassment and retaliation, and complies with all applicable federal, state and local laws, regulations and Executive Orders.

Inquiries concerning allegations of discrimination based on any of the above factors may be referred to the University of Denver Office of Equal Opportunity/ADA Compliance, Mary Reed Building, Room 422, 2199 S. University Blvd., Denver, CO 80208. Phone: 303-871-7436. Fax: 303-871-3656. For more information, please call the above number or see the website at <http://www.du.edu/deo/>. You may also contact the Office of Diversity and Equal Opportunity/ADA Compliance with concerns regarding determinations of religious or disability accommodations and /or issues about access.

## **WELCOME TO THE EDUCATIONAL LEADERSHIP AND POLICY STUDIES PROGRAM**

Welcome to the Educational Leadership & Policy Studies (ELPS) Program in the Morgridge College of Education (MCE) at the University of Denver. The decision to pursue a certificate or graduate degree may have been an easy one for you to make, or it may have required more thought than you anticipated. One thing is certain - you have been selected because we know that your leadership will have an impact in educational settings that span from early childhood to post-secondary, in Colorado and the nation. A graduate degree is a significant commitment of time, money, and effort; and the ELPS faculty are committed to make it one of the most rewarding experiences of your lifetime.

Your experience in our programs will be different from those of most other graduate students. We expect that you will act on your learning and lead to make a difference. A certificate or degree course of study in ELPS will provide you with relevant learning through integrating high quality content and research, authentic projects and field experiences and individualized support from a team of experienced school leaders and University faculty. Classes are held on weekends or late on weekdays, and blended online learning and partnerships with districts provide flexibility and relevance. Additionally, classes are structured in a cohort model of delivery, so you will build tight learning communities that will persist beyond the completion of the program. The cohort model encourages a consistently high level of professional support and challenge among members. We value our continued connections with graduates, and work to facilitate connections of alumni with current MCE faculty and students.

The ELPS faculty is comprised of full-time University professors with district and school leadership experience and effective educators who are currently employed in districts, schools, and other related professions across the state. We integrate the work of real educational contexts within our courses, and expect all students to apply learning to lead improvement efforts in your educational settings while developing personal leadership capacity. The goal of the faculty is that you develop a strong commitment to core values essential for ethical, visionary, courageous, transformative, and responsible leaders as well as the skills and abilities necessary for success as a leader in educational settings.

We congratulate you on taking the first step on this new adventure, and we welcome you into our community of learners. We look forward to partnering with you, knowing that we make a difference for every student, teacher and community by doing great things together.

Warm regards,

Susan Korach, EdD  
Department Chair  
Educational Leadership and Policy Studies

## MORGRIDGE COLLEGE OF EDUCATION POLICY AND PROCEDURES

### Academic Policies

#### *Grades and Grade Point Average*

The minimum passing grade for coursework is C-. Please refer to the Office of Graduate Studies [Academic Standards document](#), which includes information students need to know in order to remain in good academic standing.

#### *Policies and Procedures*

Graduate students are responsible for adhering to the [Graduate Policies](#) manual. For MCE Academic Policies, please refer to the [Morgridge College of Education website](#).

## EDUCATIONAL LEADERSHIP AND POLICY STUDIES PROGRAM OVERVIEW

### Educational Leadership and Policy Studies Department Mission

The Educational Leadership and Policy Studies program mission is to be a force for positive change in the lives of individuals, organizations and communities through unleashing the power of learning. We accomplish our mission in four ways:

- Through preparing highly competent, socially responsible, ethical and caring professionals to promote learning in diverse settings.
- Through actively reaching out beyond our College to engage in learning partnerships with others.
- Through contributing high quality research to our respective fields.
- Through modeling excellence in all of our own educational programs.

## EDUCATIONAL LEADERSHIP AND POLICY STUDIES FACULTY AND STAFF

The Educational Leadership and Policy Studies faculty is committed to working closely with students to facilitate their academic progress. As part of this process, faculty members regularly review all students' work to assess their progress. Assessment is based on a review of coursework, independent work, and other relevant criteria, such as demonstrated competence in writing and critical thinking. In addition, in order for students' knowledge to be current, and to pursue research on timely problems that will advance the field, it is expected that all students will make steady progress toward completion of degree requirements. Faculty bios can be found on the [MCE website](#).

## EDUCATIONAL LEADERSHIP AND POLICY STUDIES PROGRAM REQUIREMENTS

### ELPS Certificate for Principal Preparation: ELSS and Ritchie

The Educational Leadership and Policy Studies programs offer intensive, integrated academic and field-based experiences and competency-based learning. Students learn to create learning communities that foster academic achievement and optimal growth and development for all learners. Students focus on leadership, policy studies and research that are relevant and appropriate for meeting today's educational challenges.

The Educational Leadership and Policy Studies Program focuses not only developing the skills and competencies necessary for success as a school leaders but also on developing a strong commitment to core values, collaborative norms and a reflective process essential for ethical and responsible leadership. In addition to these professional expectations, all faculty use rubrics to assess the critical thinking, communication and participation of ELPS students. The program values, norms, reflective process and rubrics are presented on the next pages.

Internships are supervised learning opportunities to strengthen professional expertise in environments that provides both academic credit and experiential learning. The principal preparation internship (ADMN 4860) is highly integrated with project-based learning within each course and is required of each student each quarter in the principal preparation programs.

### Course Requirements and Course Descriptions

The [Graduate Bulletin](#) contains all program course requirements and course descriptions under the Program of Study tab.

### Additional Requirements, ELPS Certificate

#### Inquiry Projects

Each quarter features an Inquiry Project—students collect and analyze data and engage in leadership experiences that are integrated with their internship. Students work with these Inquiry Projects as an ongoing context for thinking about leading and developing schools throughout the entire program and into their careers as educational leaders. Student learning and experiences are captured in their personalized ePortfolio.

**Inquiry Project: Organizational Diagnosis:** School leaders are able to lead efforts to create and sustain schools that successfully address the needs of every student, regardless of their diverse backgrounds. Issues of student and community equity and input are examined to challenge structures and assumptions about diverse and dominant cultural groups and access to learning. In this project a school profile and “snapshots” of culture, student achievement, leadership and market analysis are developed. Students identify organizational needs and practices relative to student achievement, culture, and leadership and marketing.

**Inquiry Project: Leading Teaching and Learning:** Building the capacity of staff to use 21<sup>st</sup> century teaching and learning skills, knowledge and values are vital to student success. Principals create and sustain change in schools by engaging stakeholder participation in formulating and implementing change, without which most reform efforts fail. For example, wise use of technology, culturally proficient teaching, and differentiated instruction are pivotal to student

success. In this project students work with a teacher or teacher team in a collaborative inquiry action process and identify best practices in assessment, curriculum, instruction, learning, and leadership and identify organizational structures needed to support student learning needs.

**Inquiry Project: Developing People:** Principals help schools become communities that prepare students to participate in society. They influence the organizational practices of schools and distribute resources equitably, uphold high standards, and give all students a variety of opportunities to learn and participate in their schools. Principals have the responsibility to provide a powerful and insightful voice regarding decisions about school change. In this project students identify best practices in evaluation and resource management to support and sustain human resources for student achievement.

**Inquiry Project: Leading and Resourcing Change:** Excellent principals draw on researched, evidenced-based knowledge to lead innovative schools, melding theories with action to result in best practice. Understanding the legal, political, and socio-cultural contexts for organizing school resources and work is critical to sustaining school efficiency and effectiveness. In this project students provide evidence of how to use resources to lead change and support and sustain student learning.

### **The Internship**

Each internship experience focuses on “problems of practice” related to the quarterly Inquiry Projects. Potential issues for investigation include systems; culture and environment; student support and response to intervention/instruction (RTI); data use; resource management; family and community engagement; teacher professional development, supervision, and evaluation; policy and ethics; and communication. The Internship is guided by the cohort professor, a mentor principal and a menu of opportunities that complements the focus of each of the inquiry projects. The University grade received by the intern is based upon the cohort professor’s judgment of the intern’s growth and understanding of the nature, problems and processes of leadership. The grade will be based upon multiple criteria including: 1) review of student’s portfolio including the standards-based inquiry projects and reflections; 2) log of internship hours and experiences; 3) attendance and participation in meetings with mentor principal and cohort instructor; and 4) feedback from cohort instructor and mentor principal.

Internship Process (minimum requirements)

- **Initial Meeting:** the student will schedule a meeting (may be ‘virtual’ by phone, Skype, chat room or email) between the student, the mentor principal and university instructor within the first 2 to 3 weeks (20-30 clock hours) after beginning the internship. Prior to the first meeting, the student gives the mentor principal a copy of the inquiry project internship materials and the appropriate Internship Evaluation Document: [Intern Evaluation Form \(ELSS\)](#), [DPS School Leadership Framework \(Ritchie DPS\)](#) or [Professional Traits Evaluation \(Ritchie Adams\)](#).
- **Quarterly** check-in meetings (may be ‘virtual’ by phone, Skype, chat room or email) to share and discuss the new **Inquiry project** outline with the principal mentor. School needs or considerations that might require a modification of the project are discussed. The cohort instructor is available to meet with students if desired or necessary-please contact them as needed/desired by the student or field mentor.

- **End of Each Quarter: Log of hours and Inquiry Projects (or completion of the internship evaluation.)** This documentation is posted on the student’s Portfolio for course professor review or shared in a conference with the student, cohort instructor and mentor principal.
- **Last Quarter:** the appropriate Internship Evaluation Document is completed by the field mentor prior to the Final Conference and submitted electronically to the university mentor.

### **Certificate Completion Requirement - Final Portfolio Review and Leadership Journey Presentation**

The final portfolio contains the cumulative learning from the principal certificate program. Each student prepares a portfolio that includes reflections of learning from the inquiry projects and provides evidence of meeting state standards for principals. Each student also presents a review of learning at an end-of-year, in-person Leadership Journey event. Mentor principals are invited to attend this event. The student is required to provide the following context for leadership actions:

- Introduce school and position
- Articulate vision, goals, key strategies and bold steps took to impact student learning and achievement at the school
- Identify at least one “essential” leadership question
- Clearly articulate how the inquiry projects impacted leadership development and experiences
- Provide evidence of leadership competencies relative to Colorado Quality Standards for Principals and District leadership standards (if applicable).

### **ELPS Master of Arts Degree**

The Educational Leadership and Policy Studies Program Master of Arts (ELPS-MA) is uniquely designed to prepare leaders who are capable of turning around low performing schools. The master's degree is a 7-quarter program of study that begins with the foundation of either the Ritchie Program for School Leaders (Ritchie) or the Executive Leadership for Successful School (ELSS) certificate program.

The ELPS Program (MA degree) is an approved provider of CDE School Turnaround Leadership Grant Program (<http://www.cde.state.co.us/accountability/turnaroundleadership>)

### **Program Course Requirements and Course Descriptions**

The [Graduate Bulletin](#) contains all program course requirements and course descriptions under the Program of Study tab.

### **MA Degree Completion Requirement - Action Research Project**

The Action Research course (ADMN 4849) provides the methodological framework and support for the development of a capstone project, which serves as the comprehensive exam for the Master's in Educational Leadership and Policy Studies and Policy Studies. While enrolled in this course, students are responsible for designing a study, reviewing appropriate literature, and gathering/analyzing data. Under the supervision of the course instructor, students will then draw conclusions from their research, make an action plan, and reflect on the relationship between action research, leadership and the content in the Educational Leadership and Policy Studies Master's program. The result is the completed capstone. Certification of successful capstone completion by each student's capstone advisor is necessary to fulfill degree requirements for the MA. Students are expected to complete the capstone in the quarter during or immediately following completion of ADMN 4849. Students who do not complete the capstone during ADMN 4849, prior to leaving the Action Research course will be assigned a Capstone Advisor by the ELPS Department Chair.

The capstone project for the ELPS MA should demonstrate:

- An integration of theory and practice
- Original thinking and research richly supported by literature from the field, using APA format
- A problem-based focus connected to practice Instructor approval of action research project

Students will follow this process in the formulation of the action research project:

- Selecting a focus
- Clarifying theories
- Identifying research questions
- Collecting data
- Analyzing data
- Reporting results
- Planning/Taking informed action

### **Evaluation of the Action Research Project**

The Action Research professor or the student's Capstone Advisor will evaluate the completed capstone project. After the final evaluation of the capstone, the Capstone Advisor will submit the Certification of the Completion of Capstone to the Academic Services Associate.

All capstone projects will be evaluated using the following criteria:

- Clear identification of focus and research question(s)
- Relevant literature review of related research (minimum of 5 sources, APA format)
- Clear research design, development of data collection tools and definition of data sources and collection processes
- Strong data analysis and interpretation of findings
- Clear description of the planned or real action resulting from research findings.

Specific rubrics and feedback sheet for the capstone project are found in the Appendices of this handbook.

## ELPS Doctoral (EdD/PhD) Degrees

The Educational Leadership and Policy Studies Program doctoral (EdD or PhD) degree prepares students to design, conduct, and use research for evidence-driven practice and policy leadership. Content and research courses are designed to work together to prepare students to design, conduct, and use applied research for evidence-driven practice and policy leadership. Courses are in a cohort format so that students get to know a cadre of fellow educational leaders and support each other through the coursework and doctoral research.

### Program Course Requirements and Course Descriptions

The [Graduate Bulletin](#) contains all program course requirements and course descriptions under the Program of Study tab.

### Student Responsibilities

The student must assume full responsibility for meeting all requirements for the degree. Before becoming a candidate for graduation, the student must complete the following:

- The candidate must apply for graduation by the deadline. Failure to do so will automatically delay graduation to a subsequent quarter, resulting in a graduation deferral fee.
- Submit the doctoral research project to the committee at least two weeks before the date of the defense.
- Satisfactorily complete the oral defense at least three weeks before the end of the quarter in which the degree is to be awarded. If revisions are such that the doctoral research project in its final form cannot be filed at least two weeks before the end of the quarter, the awarding of the degree will be postponed.
- All Incomplete grades must be removed at least three weeks before the end of the quarter in which the degree is to be awarded.

### Doctor of Education (EdD)

The EdD in Educational Leadership and Policy Studies builds on prior leadership preparation and Master's degree in an education field with two years of coursework plus one year of supervised applied team research. In year three, EdD students conduct field research in collaboration with partner schools and districts. Students have a wide variety of research options, and also may design the doctoral research project with faculty approval. This final year design provides students with access to authentic data and research sites to engage with real problems of practice.

Forms and Rubrics related to the EdD can be found in the Appendices of this document.

### Additional Program Requirements, EdD

#### EdD End-Of-Year Reviews

A required component of the Educational Leadership and Policy Studies EdD program are reflections on learning relative to the development of knowledge, skill and professional attributes (ELPS Student Learning Outcomes). Failure to submit the narrative reflection by the

deadline may result in placement on probationary status and the requirement of a Remediation Plan with his or her advisor. The End of Year Review is a comprehensive review of student learning relative to coursework and the ELPS Student Learning Outcomes.

### **ELPS Student Learning Outcomes**

- **Student Learning Outcome 1:** Base leadership practice on empirical evidence to provide effective, ethical and culturally responsive leadership in educational settings that leads to equitable learning for all students.
- **Student Learning Outcome 2:** Engage in critical scholarly inquiry, application and development of knowledge, and consideration of values and ethics.
- **Student Learning Outcome 3:** Assume leadership to leverage school, district and community resources available in order to maximize the ability to serve the best interests of students and families.

### **Review Process and Feedback**

Narrative Reflections will be reviewed by a team of two ELPS doctoral faculty members. Should their assessment of work not agree, a third faculty member will review to determine the student's level of proficiency.

- To **Meet Standards**, there must be evidence that demonstrates that student's competency with or achievement of the standards listed.
- To **Exceed Standards**, there must be evidence of that student's competency with, or achievement of, the standards listed in the Exceeds column for at least ONE outcome.
- A student whose Narrative Reflection earns a rating of **Below Standards** in any single SLO will earn an overall rating of Below Standards regardless of ratings earned in any of the other SLOs.

The student can expect notification of results no later than the Monday two weeks after the submission deadline. The academic advisor will make this notification to the student's official DU email address. A student whose work falls **Below Standards** must meet with the academic advisor within two weeks of notification of the results to develop a remediation plan.

## **Degree Completion Requirement, EdD**

### **Doctoral Research Project (DRP)**

#### **Description, Criteria and Evaluation**

The Doctoral Research Project represents the culminating research experience for Doctorate of Education students through which degree candidates are expected to complete a publication quality project that investigates a key issue or problem important to the field of education. Upon completing the research, students will be able to reach conclusions and offer recommendations. Through this process, students have an opportunity to translate what they have learned into real-world applications.

The structure of the doctoral project is meant to provide both a standard of excellence for a scholarly contribution on the part of the student, as well as a significant degree of flexibility by which the student may make such contribution. The doctoral project is meant to serve as a vehicle by which the student can make an *original* and *scholarly contribution* to the field of educational leadership. The ELPS student must add original (not common-knowledge) material about the research topic. This does not mean that every student must embark upon something totally new and untested. The “newness” and originality must come in the way the student has conceptualized the problem and undertaken the research.

The research may include new standard operating procedures, policy development, evaluation of existing services or procedures, program implementation, surveys, comparative analysis, or experimentation. Each DRP will be evaluated according to the guidelines established within this document.

All research projects that qualify as human subject research need to be reviewed by the Institutional Review Board (IRB) through the Office of Research Integrity and Education (ORIE). ORIE provides support and oversight for research conducted by members of the University of Denver community so as “***...to ensure active adherence to the ethical principles and professional standards for the responsible conduct of research.***” MCE students, staff and faculty who conduct research are required to review the following [checklist](#) and [flow chart](#) as the first steps to determine if your research project qualifies as human subject research that requires you to submit a proposal to be reviewed by the Institutional Review Board (IRB). Please review the [examples](#) of research activities that may or may not require an IRB proposal. MCE graduate students should consult with their faculty advisor about their research activities. If you have additional questions about the ethical conduct of research at DU, please contact ORIE staff at 303-871-2121. More information on their office is listed on the [ORIE website](#).

The following are four Doctoral Research Project options that require critical analysis to link scholarship and practical application. Each requires a significant commitment of time and effort to produce an extended piece of writing. Preparation of the final written product will require extended review of bodies of literature relevant to the project. These options extend opportunities for students to demonstrate research skills, theoretical understandings and practical applications.

#### 1. Traditional

Students engaged in traditional research designs seek to test or generate hypotheses or to establish generalizable propositions (quantitative) or explain phenomena or events by exploring the multiple meanings experienced by individuals, to explore and advance theory, or advance an argument (qualitative). Mixed methods research involves both collecting and analyzing quantitative and qualitative data to provide a better understanding of a research problem through more comprehensive evidence than if either dataset had been used alone.

#### 2. Program Evaluation

Students engaged in program evaluation designs explore the effectiveness of educational interventions and developing implications for practice. The program evaluation identifies, clarifies, and applies defensible criteria to determine the effectiveness of an educational program, project, process, policy, or product. In every case, the program evaluation is intended to improve student learning and achievement and/or organizational effectiveness. Students' program evaluation projects should include effective aspects of evaluation capacity building.

### 3. Policy Analysis

Students engaged in policy analysis designs seek to impact education issues through the review, research, and development of educational policy. This option begins with the review of an educational issue ranging from federal, state and/or local levels. Through this review new or revised policy recommendations and implications are developed by considering internal requirements, external requirements, existing policy, and stakeholder recommendations. Policy analysis designs include implementation plans.

### 4. Organizational Problem Analysis

Students engaged in organizational problem analysis designs explore an issue, problem, or need in a school, district or educational system to develop and implement plans for improving organizational effectiveness. Tasks and skills used in an organizational problem analysis (OPA) include: understanding and using local data sources; using data to evaluate and document performance; using research to guide decisions; identifying/prioritizing organizational needs; understanding the structure and logic of problem definitions; establishing an improvement vision and performance goals; analyzing causes systemically and objectively; employing multiple perspectives in causal analyses; applying cost-benefit analyses, organizational values, and ethical criteria to solutions; and using appropriate technologies to support problem analysis, decision making, and communication.

Adapted from ILLINOIS STATE UNIVERSITY EAF DEPARTMENT  
(2009)

## **Selection of Doctoral Research Topics**

Doctoral research topics should be selected on the basis of the following factors:

- The author's individual interests.
- The significance or value of the topic and/or issue to a specific educational context (problem of practice).
- The relation of the topic or issue to the ELPS course content and learning outcomes.
- The real world application of the outcomes of the study.
- The project is feasible and can be completed in a nine to fifteen-month timeframe.

## **Required Elements**

The format of the project may vary based on the focus and research design. However, the following elements outlined and described below must be clearly identifiable in the research process (proposal to final product).

- Introduction (Background, Significance, Theory of Action and Conceptual Framework)
- Literature Review

- Research Methods and procedures
- Findings
- Recommendations and Implications
- Reference List
- Appendices (if needed)

All students must use the style prescriptions of the American Psychology Association (APA), current edition.

### **ELPS Doctoral Research Seminar and Research Hours - ADMN 5993**

Students will register for the Doctoral Research Seminar ADMN 5993 per coursework plan.

ELPS faculty expects high quality performance and on the part of ELPS students. ELPS expects students to be capable of expressing themselves in a correct and effective manner. It is important that the projects demonstrate high professional quality because each is a contribution to the educational leadership literature.

Students' timelines may vary, but the following schedule of stages should guide the work:

1. Doctoral Research Planning
  - the delimited scope (or site)
  - fully developed research questions
  - data collection plan
  - draft IRB application (if appropriate - [ORIE Policy](#))
  - Annotated Literature Review Outline
2. Doctoral Research Design
  - Confirmed problem/question and research site
  - Preliminary theory of action and theoretical or conceptual framework
  - Literature review
  - Data collection plan and timeline
  - Defend Proposal
  - IRB approval/research site approval (if needed - [ORIE Policy](#))
3. Doctoral Research Data Collection and Analysis
4. Doctoral Research Findings and Discussion
  - Data collected, data analysis completed and connected back to theoretical or conceptual framework and literature, draft discussion and recommendations
  - Doctoral Research Project defense

### **Committee Composition and Process**

During the initial Doctoral Research Seminar (ADMN 5993), students will select a Doctoral Research Project faculty chair (who must be an ELPS appointed faculty member with an earned Doctorate) within his/her respective program, and form a committee composed of a minimum of three and a maximum of five members. There will be a maximum of three voting members: two ELPS faculty (faculty chair and committee member) and a third member who may or may not be a DU full-time faculty member. The third member may also be a community member,

adjunct faculty member, post-doctoral appointee, or a professor from other college or institutions. If the third voting member is not a DU faculty member, the selection must be supported by a strong written rationale that is submitted to the department chair for approval. In cases in which the third member is not a DU full time faculty member, the third member will be a non-voting member. In these cases the non-voting community member will review the Doctoral Research Project and provide written feedback to inform the voting process. In rare cases in which there is a three person committee with two voting members and the review results in a split decision, an additional full time faculty member, whose appointment is within the department, will be asked to review the documentation and vote on the project. Students may consult with their faculty academic advisor for help in identifying a Doctoral Research Project faculty chair. An *ELPS Doctoral Research Project Committee form* (Appendix A) must be submitted by the student to the ELPS department chair.

The DRP committee will meet together on at least two occasions (a proposal hearing and an oral defense). When students have completed the doctoral research design phase of their work (research question/problem statement, theoretical/conceptual framework, preliminary literature review, research design, data collection plan and timeline) and completed the initial two credits of the Doctoral Research Seminar, they will schedule a proposal meeting with their committee. Once the DRP committee has approved the research design of the DRP, the chair will submit the signed *ELPS Doctoral Research Project Proposal form* (Appendix B) to the department chair for signatures and submission to the Educational Leadership and Policy Studies Academic Services Associate for upload into the candidate's academic record. Once the proposal has been approved, the student will seek IRB approval if needed ([ORIE Policy](#)) and complete the study. The faculty chair will continue to work with the student to determine readiness for the oral defense of the completed doctoral research project.

### **ELPS Doctoral Research Oral Defense**

An oral defense of the doctoral research project is required and is conducted by the candidate's committee. The defense must be held at least three weeks before the end of the quarter in which the degree is to be granted. All members of the defense committee must receive a copy of the candidate's doctoral research project at least two weeks prior to the scheduled defense. The defense is expected to be held with the student present in person at DU unless emergency circumstances make it impossible for the student to be physically present. The student must submit a completed Schedule of Oral Defense form to the ELPS Academic Services Associate no later than three weeks prior to the date of the defense.

### **Conducting the Oral Defense**

The student's DRP chair will preside over and manage the defense process. The chair is responsible for making certain that the defense is conducted in a professional manner and that the student has a fair opportunity to defend his/her doctoral research project. The chair is expected to provide opportunities for each voting member of the oral defense committee to participate in the defense and to ensure that the defense is of high quality while remaining within proper limits of inquiry. The oral defense is an open forum and MCE Faculty members and graduate students and other may attend the oral defense. After the oral defense

committee has conducted the essential examination of the candidate, questions may be asked by others present if pertinent, appropriate as determined by the defense committee.

When the defense is completed, the chair will request that the candidate and all other persons not on the defense committee leave the room and will call for a motion to pass or fail the candidate. A recommendation to pass can have no more than one negative vote from members of the committee. If the motion is a recommendation to pass, the committee must then agree on the conditions of the recommendation as follows:

- **Pass with no revisions** means that only grammatical, labeling or numbering changes are required. Only a limited number of sentence additions or deletions should be necessary.
- **Pass with minor revisions** indicates that the candidate will be required to reorganize portions of the manuscript and change some of the content.
- **Pass with major revisions** means that a complete section or sections must be rewritten, additional tables are required and interpreted, or the general format must be changed. Responsibility for seeing that needed revisions are made rests with the chair, but committee members also may require their approval before final submission.
- **Fail** indicates that the content is not of acceptable quality or that the candidate cannot defend the research. In most cases, failing the defense results in the rejection of the student's DRP and a new or related study usually will need to be undertaken.

A candidate who fails the oral defense may petition to the oral defense committee for a maximum of one re-defense.

The *Result of Oral Defense* form (Appendix C) must be signed by all committee members and returned to the Educational Leadership and Policy Studies Academic Services Associate. All signatures must be original. In rare occasions, when a committee member participates remotely, a faxed or scanned signature will be accepted.

### **DRP Publication**

Once the chair has approved the DRP final product, the chair and the student will complete the *SUBMISSION AGREEMENT for Digital DU and the University of Denver Libraries* (Appendix D) and submit the completed form to the Academic Services Associate to serve as documentation of the successful completion of the DRP. The chair will submit the form and products in a PDF format to the listserv address: [elps-edd@du.edu](mailto:elps-edd@du.edu).

## **Doctor of Philosophy (PhD)**

The Educational Leadership and Policy Studies (ELPS) Doctor of Philosophy is a degree with coursework that includes a strong focus on quantitative and qualitative research methods, computer applications related to leadership, school reform, and teaching and learning. These areas are studied in an effort to expand and enhance research skills and add to the knowledge base needed for effective schools. An ELPS PhD prepares individuals for successful careers in educational leadership and administration. Students who have earned this graduate degree reflect the successful acquisition of the knowledge and competencies required to assume leadership positions in educational organizations.

The first two years of coursework and foundational research training courses provide students with a strong grounding in the leadership of educational organizations and applied research and policy. In the third year PhD students work with an advisor to design a focus of final courses in advanced research preparation and a cognate area (e.g., curriculum design, higher education, educational assessment, etc.). PhD students who have completed a leadership program at DU may be able to apply some of their content coursework toward the third-year cognate requirements (9-12 hours), if those hours have not already been used for another degree. In every case such application of hours will be negotiated with the student's faculty advisor while developing the initial course plan of study. The Office of Graduate Studies makes all final decisions regarding transfer credits. The final degree requirement is the successful completion of the dissertation.

### **Program Course Requirements and Course Descriptions**

The [Graduate Bulletin](#) contains all program course requirements and course descriptions under the Program of Study tab.

## **Additional Degree Requirements - PhD**

### **The Comprehensive Examination**

A Ph.D. in Educational Leadership prepares individuals for successful careers in educational leadership and administration. Students who have earned this graduate degree reflect the successful acquisition of the knowledge and competencies required to assume leadership positions in educational organizations. The comprehensive examination is an assessment of the student's comprehension of the field, of the capacity to undertake independent research, and the ability to think and support claims. It also certifies that the student has demonstrated evidence of proficiency in both theory and practice to move from the required ELPS core program into the elective specialization year, which will be followed by the dissertation.

### **Examination Process**

Students write the comprehensive exam during their last two quarters of the second year of the Ph.D. program, and it is due the last day of Spring Quarter. All program and core coursework should be complete at the time of the comprehensive exam.

During the Fall Quarter of the second year of coursework the student must meet with his/her academic advisor to review the transcript and coursework plan, and to discuss readiness to

write the comprehensive exam. All program, core coursework, and incomplete coursework must be completed and graded by the submission of the comprehensive exam. If a student receives an Incomplete grade at the end of the quarter following registering for the exam, all outstanding work for the course must be turned in to the course instructor by the end of the first week of the quarter in which the exam is to be taken. Exceptions to this program policy may be made only by petition or written request signed by the student's academic advisor and by the Educational Leadership and Policy Studies Department Chair. This petition should document the student's rationale for taking the exam prior to course completion, a plan for the completion of course requirements and documentation of the student's readiness to write the exam.

### **Expectations for the Ph.D. Comprehensive Exam**

The purpose of the Ph.D. comprehensive examination is to allow students to demonstrate the ability to integrate their understanding of educational leadership theory and practice (including basic research design and methods) acquired during the degree coursework. The exam will be written over the last two quarters of coursework during the second year and submitted to the ELPS Department Chair on or before the last day of the Spring Quarter.

Each student is expected to complete the following:

1. **Scholarly essay** that demonstrates the breadth and depth of comprehension of the field of educational leadership and policy (theory, conceptual frameworks, praxis, applicable research methodology). The essay should incorporate the thinking and work accomplished relative to the proposed area of study. This essay is similar to what is expected in the introductory chapter of a dissertation. The following questions should be used as a guide.
  - What are the pressing issues in educational leadership and policy studies?
  - What will be the issue of focus for the essay?
  - Who are the scholars? What are the results from relevant research? What are appropriate research designs within the field? What are the strengths and gaps in the current research?

The essay should be approximately 15-20 double-spaced pages and demonstrate the ability to link theory to practice, support claims with research and think critically. The essay must have a format and style consistent with the latest APA edition.

2. **Concept and Literature map** that demonstrates deep understanding of the research and scholarly literature relative to a research question. Include a narrative description/discussion of the maps as a summary of how the research question addresses the gaps in the themes, including the identification of counter narratives and possible deficits in past literature on the research topic.

Responses should have approximately 40 sources and demonstrate an ability to connect an investigation of the literature to a research question and analyze the literature's contributions to at least three thematic areas related to the question. The concept and literature map should explore gaps in the research and counter narratives. The narrative description/discussion will be 3-5 double-spaced pages.

3. **Narrative Reflection** that synthesizes learning from coursework relative to the ELPS Ph.D. Student Learning Outcomes.

This reflection must

- be organized in four sections – one section for each student learning outcome (see below)
- contain specific examples from papers and projects submitted that represent learning relative to the SLOs
- cite course readings and research to support analysis and reflections
- use format and style consistent with the latest APA edition for reflective writing (first person is appropriate)

### **ELPS Ph.D. Student Learning Outcomes**

**Learning Outcome 1 – Engaged Scholar:** Base leadership practice on theoretical foundations and empirical evidence to provide effective, ethical and culturally responsive leadership in educational settings that leads to equitable learning for all students.

**Learning Outcome 2 – Engaged Researcher:** Engage in critical scholarly inquiry, application and development of knowledge, and consideration of values and ethics.

**Learning Outcome 3 – Transformative Leader:** Assume leadership to leverage school, district and community resources available in order to maximize the ability to serve the best interests of students and families.

**Learning Outcome 4 – Accomplished Researcher:** Conduct independent research and critically examine current educational practices to ensure improved educational opportunities and outcomes for all students.

#### **Requirement of Independent and Original Work**

Students are expected to complete this exam independently; responses should be completed without the assistance of any other person. The University of Denver Honor Code fosters and advances an environment of ethical conduct in the academic community of the University, the foundation of which includes the pursuit of academic honesty and integrity. Through an atmosphere of mutual respect we enhance the value of our education and bring forth the highest standard of academic excellence. Members of the University community, including students, faculty, staff, administrators and trustees, must not commit any intentional misrepresentation or deception in academic or professional matters. DU's Honor Code also maintains that all members of the University must responsibly use the work of others. Students who have plagiarized a project may receive a grade of F on that project, and the instructor will inform the Coordinator of ELPS who may take further action.

Any documented acts of plagiarism after the first may be subject to more severe actions. Any violation of the University's Honor Code may have significant academic consequences, and will be reported to [Student Conduct](#).

## **Evaluation**

Comprehensive Exams will be reviewed by a team of two ELPS doctoral faculty members. Should their assessment of work not agree, a third faculty member will review to determine the student's level of proficiency (see Appendix E for rubrics).

In addition to the "Pass" or "Fail" designation filed with the Office of Graduate Studies, ELPS uses the additional levels to inform the passing performance:

"Pass with Honors" means that the faculty reviewers assessed the reasoning, insights, ideas, and presentation of material in the comprehensive exam responses as significantly above average and worthy of recognition.

"Pass" means that the faculty reviewers assessed the substance and style of the comprehensive exam responses as acceptable.

"Low Pass" means that while the substance of the responses was technically adequate to not prompt a "conditional pass" or "fail," the faculty reviewers assessed the reasoning, logical presentation, depth of responses, and/or writing skills as insufficient or lacking. While the University will show the "Low Pass" as a regular "Pass" on a student record, the student is put on notice by a "Low Pass" designation that significant work in demonstrating understanding, reasoning and writing is needed. A dissertation presented consistent with a "Low Pass" comprehensive examination would not pass.

"Conditional Pass" means that a major section or portion of the exam was not adequately explained, completed or supported with appropriate citations and references to scholarly literature. A student with a Conditional Pass will be given one chance to rewrite the portion of the exam that was deficient, with explicit criteria outlined from the faculty review process and communicated by the Academic Advisor. Completed conditional pass revisions must be resubmitted for approval within two weeks of the meeting with the student's Academic Advisor regarding the comprehensive exam. Two faculty members will re-read the revision and rate it as either "Pass" or "Fail." Students who do not pass this revision must reschedule to retake the entire exam. The student will then be given one opportunity to retake the entire exam. An ELPS PhD student must pass the comprehensive exam in order to graduate.

"Fail" means that the majority of the exam was not acceptable. The student will be given one additional opportunity to retake either the entire exam or a portion of the exam, as determined by ELPS faculty reviewers. Explicit criteria outlined from the faculty review process will be communicated to the student by the Academic Advisor. The student may be instructed to retake the exam on the DU campus with a proctor. Two faculty members will read the exam and rate it as either "Pass" or "Fail." The ELPS PhD student must pass the comprehensive exam in order to graduate.

## **Notification of Results of Comprehensive Examination**

The student can expect notification of results no later than the Monday two weeks after the exam is due. The ELPS Department Chair will make this notification to the student's official DU

email address. Students who do not pass the comprehensive examination or who pass it provisionally must meet with the academic advisor within two weeks of notification of the results in order to formally determine the student's next steps in the program.

### **Degree Completion Requirement, PhD**

#### **The Dissertation and Research Hours, ADMN 5995**

Students will register for the dissertation research credits, ADMN 5995, per coursework plan.

When doctoral coursework is successfully completed, students in the PhD doctoral program focus on research and the writing of a doctoral dissertation related to the student's area of concentration and professional interest. The dissertation topic should be directly related to some aspect of educational leadership and/or policy studies. The dissertation is a demonstration of the student's ability to design and undertake independent research on a topic or issue of significance to the field of educational leadership. Students should refer to the [Graduate Policies and Procedures](#) and [ORIE Policy](#) for detailed information on the dissertation process.

## APPENDICES

### MCE Vision Statement

The Morgridge College of Education (MCE) will be a global leader in innovative and effective approaches for promoting learning throughout the lifespan. Transcending traditional ideas about education and schooling, we will embrace a new, comprehensive vision of learning as a lifelong activity that involves the whole person and can occur through a variety of methods, anywhere and at any time. We will promote educational change and social equity and will provide leadership for the improvement of education, mental health and information services and systems.

### Educational Leadership and Policy Studies Values

**Ethics** - It is essential that educational leaders exemplify a personal and professional commitment to ethical conduct, respect others and their rights, and doing the “right” things in all decisions.

**Know Thy Self** - Educational leaders should be reflective practitioners who accept critical feedback with the personal insight necessary to act on increasing their leadership skills.

**Building Relationships** - Educational leaders must be adept at building positive relationships through teamwork and holding high expectations for the performance of all.

**Action Orientation** - The framework for our course of study is built upon experiences that require participants to be action oriented leaders and researchers.

**High Expectations for Self and Others** - Educational leaders should hold high expectations for their own performance, as well as for the performance of all others in the organization. Educational leaders should embrace accountability as a tool for continuous improvement.

**Equity** - All members of the educational community are capable of learning and being successful in their contexts. Educational leaders have a responsibility to establish learning conditions that meet the learning needs of all stakeholders.

**Diversity** - There is a value in having diversity in organizations. Educational leaders need to understand how cultural, linguistic, socioeconomic, gender, etc. differences affect learning and leadership styles. Leaders have to become culturally proficient leaders and understand how to lead a system that supports diversity.

**Community** - Organizations, neighbors, and family members are key players in the education of children. Educational leaders should know how to mobilize resources in the family and in the community to support student learning.

**Inspired Leadership** - Educational leaders should be committed to a vision of leadership that is collaborative, distributed, data-driven, effective, research-based, ethical, entrepreneurial, reflective, developmental and courageous.

Civic Engagement- Educational leaders should create environments within their organizations that help students develop the skills to be engaged citizens in our democratic society. Educational leaders should be aware of the cultural, political, social and historical context of education in the United States.

Explicit and Honest Communication - Educational leaders should ensure that communication is explicit and honest.

Head, Hand and Heart - Engaged and committed educational leaders must be willing to fully dedicate their knowledge, skills, and passion towards the important work of creating effective schools for all learners.

### **The Seven Norms of Collaborative Work**

**Paraphrasing:** Using a paraphrase starter that is comfortable for you: “So...” or “As you are...” or “You’re thinking...” and following the statement with a paraphrase assists members of the group to hear and understand each other as they formulate decisions.

**Pausing:** Pausing before responding or asking a question allows time for thinking and enhances dialogue, discussion and decision-making.

**Probing:** Using gentle open-ended probes or inquires such as, “Please say more...” or “Can you tell me more about...” or “Then, are you saying...?” increases clarity and precision of the group’s thinking.

**Putting ideas on the table:** Ideas are the heart of meaningful dialogue. Label the intention of your comments. For example, you might say, “Here is one idea...” or “One thought I have is...” or “Here is a possible approach” ... or “I’m just thinking out loud...”

**Paying attention to self and others:** Meaningful dialogue is facilitated when each group member is conscious of self and others and is aware of not only what is being said, but also how it is said and how others are responding. This includes paying attention to learning style when planning for, facilitating and participating in group meetings. Responding to others in their own language forms is one manifestation of this norm.

**Presuming positive intentions:** Assuming that other’s intentions are positive promotes and facilitates meaningful dialogue and eliminates unintentional put-downs. Using positive intentions in your speech is one manifestation of this norm.

**Pursuing a balance between advocacy and inquiry:** Pursuing and maintaining a balance between advocating for a position and inquiring about one’s own and others’ positions assists the group to become a learning organization.

Adapted from Garmston, R., and Wellman, B. (2009). *The adaptive school: A sourcebook for developing collaborative groups*, 2nd edition. Norwood, MA: Christopher Gordon.

### **Reflective Process**

In order for reflection to become the focus of development it needs to be explicit, structured and shared. It needs to move beyond a record of events to a catalyst for analysis and action. Given this intent, reflective journals should be structured to answer the following questions:

- What do/did I do? (Describe)
- What does this mean? (Inform)
- How did I come to be like this? (Confront)
- How might I do things differently? (Reconstruct)

Adapted from Smyth, J. (1988). Deliberating on Reflection in Action as a Critical Form of Professional Education. *Studies in Continuing Education*. 10(2), 164–171.

## FORMS AND RUBRICS

<b>Educational Leadership and Policy Studies COMMUNICATION RUBRIC: Writing and Presentation</b> Adapted from <a href="http://www.aacu.org/value/rubrics/pdf/WrittenCommunication.pdf">http://www.aacu.org/value/rubrics/pdf/WrittenCommunication.pdf</a> Rhodes, Terrel, ed. 2010. <i>Assessing Outcomes and Improving Achievement: Tips and Tools for Using Rubrics</i> . Washington, DC: Association of American Colleges and Universities. This rubric is intended for use as a form of student feedback. It is not used to calculate grade scores.			
<b>Criteria</b>	<b><i>Does not meet expectations</i></b>	<b><i>Approaches expectations</i></b>	<b><i>Meets Expectations</i></b>
<b>Purpose for Writing or Presentation</b>	<ul style="list-style-type: none"> <li>The written text or presentation demonstrates little or no awareness of purpose, audience and context.</li> </ul>	<ul style="list-style-type: none"> <li>The written text or presentation aligns purpose, audience and context.</li> </ul>	<ul style="list-style-type: none"> <li>The written text or presentation clearly aligns purpose, audience and context that synthesize all elements of the work.</li> </ul>
<b>Content Development</b>	<ul style="list-style-type: none"> <li>Limited, not essential or random details are presented</li> </ul>	<ul style="list-style-type: none"> <li>Key details are presented but do not demonstrate in-depth understanding or lead the reader to convincing and well- supported conclusions</li> </ul>	<ul style="list-style-type: none"> <li>Relevant, quality details clearly support the intent and purpose of text or presentation and lead the reader to convincing conclusions and/or present novel ideas.</li> </ul>

<b>Developing People</b> <ul style="list-style-type: none"> <li>• Human Resources: Recruitment, Selection, Interviews, mentoring program</li> <li>• Practice observations, lesson studies, walk-through</li> </ul>	
<b>Organizational Diagnosis</b> <ul style="list-style-type: none"> <li>• Assess building achievement, culture and leadership needs</li> </ul>	
<b>Leading Teaching and Learning</b> <ul style="list-style-type: none"> <li>• Behavior Management and Discipline</li> </ul>	

**INTERNSHIP FORM C. ELSS INTERN PERFORMANCE EVALUATION FORM\***

Intern's name: \_\_\_\_\_

Location of internship work: \_\_\_\_\_

Duration of internship: from \_\_\_\_\_ to \_\_\_\_\_  
(Date) (Date)

1. Did the intern achieve her/his objective? Yes \_\_\_\_\_ No \_\_\_\_\_

2. In your opinion, what other administrative experiences should this intern have before assuming an administrative position at this level? Please describe below.

Please indicate the intern's performance demonstrated on the skills listed below: 0 = not observed; 1 = needs much more work; 2 = need more work (marginal) 3 = performance was adequate; 4 = performance was strong

\*District partnership programs may use an alternate form

**Standard I: Principals demonstrate strategic leadership**

- A. Vision, Mission and Strategic Goals: Principals develop the vision, mission, values, beliefs and goals of the school, collaboratively determining the processes used to establish these attributes, and facilitate their integration into the life of the school community.
- B. School Improvement Plan: Principals ensure that the unified improvement plan provides the structure for the vision, values, goals, and changes necessary for improved achievement and developmental outcomes for all students, and provides for tracking of progress based on data.
- C. Leading Change: Principals collaboratively develop a vision and implementation strategies for improvements and changes which result in improved achievement and developmental outcomes for all students.
- D. Distributive Leadership: Principals create and utilize processes to distribute leadership and decision making throughout the school.

0      1      2      3      4

**Standard II: Principals demonstrate instructional leadership**

- A. Curriculum, Instruction, Learning, and Assessment: Principals enable school-wide conversations about standards for curriculum, instruction, assessment, and data on student learning based on research and best practices, and ensure that the ideas developed are integrated into the school’s curriculum and instructional approaches.
- B. Instructional Time: Principals create processes and schedules which maximize instructional, collaborative, and preparation time.
- C. Implementing High-Quality Instruction: Principals support teachers through feedback and appropriate professional development in order to ensure that rigorous, relevant, and appropriate instruction and learning experiences, aligned across P-20, are delivered to and for all students.
- D. High Expectations for All Students: Principals hold all staff accountable for setting and achieving rigorous performance goals for all students, and empower staff to achieve these ambitious student outcomes.

0      1      2      3      4

**Standard III: Principals Demonstrate School Cultural and Equity Leadership**

- A. Intentional and Collaborative School Culture: Principals articulate and model a clear vision of the school’s culture, and involve students, families, and staff in creating a climate that supports it.
- B. Commitment to the Whole Child: Principals value the cognitive, physical, mental, social, and emotional health and growth of every student.
- C. Equity Pedagogy: Principals demonstrate a commitment to a diverse population of students by creating an inclusive and celebratory school culture, and provide direction in meeting the needs of diverse student talents, experiences, and challenges.
- D. Efficacy, Empowerment, and a Culture of Continuous Improvement: Principals and their leadership team foster a school culture that encourages continual improvement through innovation, risk-taking, and an honest assessment of outcomes.

0      1      2      3      4

**Standard IV: Principals Demonstrate Human Resource Leadership**

- A. Professional Development/Learning Communities: Principals ensure that the school is a professional learning community that provides opportunities for collaboration, fosters teacher learning, and develops teacher leaders in a manner that is consistent with local structures, contracts, policies, and strategic plans.
- B. Recruiting, Hiring, Placing, Mentoring, and Dismissal of Staff: Principals establish and effectively manage processes and systems that ensure a high-quality, high-performing staff, including an overall count and percentage of effective teachers that reflects the school’s improvement priorities.
- C. Teacher and Staff Evaluation: Principals evaluate staff performance using the district’s

educator evaluation system in order to ensure that teachers and other staff are evaluated in a fair and equitable manner with a focus on improving performance and, thus, student achievement.

0 1 2 3 4

**Standard V: Principals Demonstrate Managerial Leadership**

- A. School Resources and Budget: Principals establish systems for marshaling all available school resources to facilitate the work that needs to be done to improve student learning, achievement, and healthy development for all students.
- B. Conflict Management and Resolution: Principals effectively and efficiently manage the complexity of human interactions and relationships, including those among and between parents/guardians, students, and staff.
- C. Systematic Communication: Principals facilitate the design and utilization of various forms of formal and informal communication with all school stakeholders.
- D. School-wide Expectations for Students and Staff: Principals understand the importance of clear expectations, structures, rules, and procedures for students and staff.
- E. Supporting Policies and Agreements: Principals familiarize themselves with state and federal laws, and district and board policies, including negotiated agreements, and establish processes to ensure they are consistently met.

0 1 2 3 4

**Standard VI: Principals Demonstrate External Development Leadership**

- A. Family and Community Involvement and Outreach: Principals design structures and processes which result in family and community engagement, support, and ownership of the school.
- B. Professional Leadership Responsibilities: Principals strive to improve the profession by collaborating with their colleagues, district leadership, and other stakeholders to drive the development and successful implementation of initiatives that better serve students, teachers, and schools at all levels of the education system.
- C. Advocacy for the School: Principals develop systems and relationships to leverage the district and community resources available to them both within and outside of the school in order to maximize the school's ability to serve the best interests of students and families.

0 1 2 3 4

**Standard VII: Principals Demonstrate Leadership Around Student Growth**

- A. Student Academic Achievement and Growth.
- B. Student Growth and Development
- C. Use of Data

0 1 2 3 4

**Overall Comments:**

Principal/Site Supervisor: \_\_\_\_\_ Date: \_\_\_\_\_

*Student, please email form to professor by the end of your final quarter of work.*

## ELPS MASTERS CAPSTONE (ACTION RESEARCH) FEEDBACK FORM

Action Research Components	Feedback
Identification of focus and research question(s)	
Literature review of related research (APA format)	
Data sources, collection process and analysis <i>List the questions that guided your research and the data collection techniques you used to answer the questions. Explain how you analyzed your data and drew your conclusions.</i>	
What did you learn? How did you reach these particular conclusions?	
What is the resulting action plan? What is your evaluation plan? What do you still want to know?  What are the implications for policy?	
Reflection – What is the relationship between action research and the content in the Ed Leadership MA program?  What are the implications for Educational Leadership and Policy Studies?

**ELPS EdD - APPENDIX A**

**UNIVERSITY OF DENVER – *Morgridge College of Education* Educational Leadership and Policy Studies (ELPS), Doctor of Education (Ed.D.) Doctoral Research Project Committee**

In general, all members of the ELPS Doctoral Research Committee should hold Doctorate degrees. The ELPS faculty chair must be an appointed faculty member with an earned Doctorate. The committee is composed of a minimum of three and a maximum of five members. Three members are voting members: two ELPS faculty (faculty chair and committee member) and a third member who may be a community member, adjunct faculty member, post-doctoral appointee, or a professor from other college or institutions. If the third voting member is not a Morgridge College of Education faculty member, the selection must be supported by a strong rationale and submitted to the department chair for approval.

**Decision (\* Voting is restricted to DU faculty)**

\_\_\_\_\_ **Pass with no revisions** means that only grammatical, labeling or numbering changes are required. Only a limited number of sentence additions or deletions should be necessary.

\_\_\_\_\_ **Pass with minor revisions** means that the candidate will be required to reorganize portions of the manuscript and change some of the content.

\_\_\_\_\_ **Pass with major revisions** means that a complete section or sections must be rewritten, additional tables are required and interpreted, or the general format must be changed. Responsibility for seeing that needed revisions are made rests with the chair, but committee members also may require their approval before final submission.

\_\_\_\_\_ **Fail** indicates that the content is not of acceptable quality or that the candidate cannot defend the research. In most cases, failing the defense results in the rejection of the student’s DRP and a new or related study usually will need to be undertaken.

**SUBMISSION AGREEMENT for Digital DU and the University of Denver Libraries  
Educational Leadership and Policy Studies (ELPS)  
Doctoral Research Projects**

The following information needs to be completed and returned to the University of Denver Libraries accompanying the final version of your doctoral research project/paper. DRP committee chairs please submit this completed form to the Academic Services Associate to serve as documentation of the successful completion of the DRP. Also submit the form and products in a PDF format to the listserv address: elps-edd@du.edu.

Please review the following and sign/date at the bottom.

1) **OPEN ACCESS** - I will submit my work electronically to the University of Denver Libraries under a Creative Commons Attribution license. Others are free to use and redistribute the work in any form with proper attribution. For more information, visit <http://creativecommons.org/licenses/by/4.0/>. Add file name(s) below:

**Educational Leadership and Policy Studies Department  
Ph.D. Comprehensive Exam Rubric - Scholarly Essay**

	<b>Does not Meet Standards (1)</b>	<b>Meets Standards (2)</b>	<b>Exceeds Standards (3)</b>	<b>Score</b>
<b>Introduction</b>	Demonstrates minimal knowledge and application the introducing the pressing issues in educational leadership and policy studies.	Demonstrates adequate competence in introducing the pressing issues in educational leadership and policy studies; lays the broad foundation for the field; creates reader interest; places the essay within the larger context of the scholarly literature.	Demonstrates exemplary competence in introducing the pressing issues in educational leadership and policy studies; creates reader interest; lays the broad foundation of the field; places the essay within the larger context of the scholarly literature. Shares organization of paper. Author lays out organization for the essay.	
<b>Statement of the Issue of focus</b>	Demonstrates minimal knowledge and application of presenting the statement of the issue of focus.	Demonstrates adequate, critical knowledge and application in presenting an issue that exists in the literature, theory, and practice.	Clearly and simply demonstrates exemplary critical knowledge and application in presenting an issue that exists in the literature, theory, and practice.	
<b>Theoretical Framework</b>	Demonstrates minimal knowledge and application of presenting the theoretical framework of the issue of focus.	The candidate is generally clear in stating an in depth analysis of key theories supporting the issue of focus.	Demonstrates knowledge of and thoughtful application in developing an in-depth analysis of key theories supporting the issue of focus.	
<b>Review of the Literature</b>	Demonstrates minimal knowledge and application of presenting the review of the literature and identifying scholars.	The candidate's performance is adequate in reviewing, describing, and summarizing; cites significant scholars; fairly well organized; and related directly to the issue of focus.	Demonstrates exemplary performance in presenting a comprehensive grasp of the issue of focus by reviewing, describing, and summarizing; cites significant scholars; well organized and related directly to the issue. Includes the student's stance.	
<b>Interrogating the Literature and Research Base</b>	Demonstrates minimal knowledge and application of evaluating relevant literature and research (both seminal and contemporary) for the issue of focus; does not identify strengths and gaps.	The candidate is reasonably clear in evaluating the relevant literature and research (both seminal and contemporary) for the essay's focus; identifies strengths and gaps along with areas needed for further research.	Demonstrates an exemplary level of competence in evaluating the relevant literature and research (both seminal and contemporary) for the-essay's focus; identifies counter narratives; demonstrates in-depth knowledge to support claims for a need for further research through an analysis of the existing research base and identification of gaps.	
<b>Research Design and Methodology</b>	Demonstrates minimal knowledge of appropriate research methodologies to study this issue.	Demonstrates adequate competence in presenting appropriate methodologies to study this issue.	Demonstrates a high level of competence in thoroughly presenting appropriate methodologies to study this issue.	

<b>References</b>	Demonstrates minimal knowledge and application of presenting the references using appropriate APA6 format.	Demonstrates an acceptable level of presenting the references using appropriate APA6 format.	Demonstrates competence in presenting references using appropriate APA6 format.	
<b>Organization and Presentation</b>	The essay is somewhat unfocused or unclear, weak, abrupt in transition, disconnected with random thoughts with no discernable points, sketchy, missing important details, inaccurate or erroneous information is provided.	The essay is generally focused and logical with identifiable thesis; generally well organized with apparent structures and transitions; accurate with clearly stated ideas; appropriate style/tone; needs minimum revisions.	The essay is very clearly focused; exceptionally organized with very apparent structures and transitions (e.g., written using scholarly conventions; coherent; highly appropriate style/tone). All ideas are integral to the essay's focus.	
<b>Conventions and Mechanics</b>	The essay is limited in vocabulary; unclear with misused parts of speech that impair understanding; inadequate in standard writing conventions (e.g., spelling, punctuation, capitalization, grammar, usage, paragraphing.)	The essay is readable and the writer's meaning is generally clear; adequate in standard writing conventions (e.g., spelling, punctuation, capitalization, grammar, usage, paragraphing); moderately ready for approval to conduct research.	The proposal is precise, interesting, specific, and accurate; excellent in standard writing conventions (e.g., spelling, punctuation, capitalization, grammar, usage, paragraphing); demonstrates evidence of readiness to conduct research.	
<b>Quality of Writing and APA 6 Style</b>	Little evidence of ability to link theory and practice, support claims with research and think critically. Demonstrates inadequate compliance of APA style and format.	Acceptable evidence of ability to link theory and practice, support claims with research and think critically. Demonstrates good compliance in the use of APA style and format; needs minor revisions.	Exemplary evidence of ability to link theory and practice, support claims with research and think critically. Demonstrates exemplary compliance in the use of APA format and style.
